Re: *Rocky Mountain Power's Solar Photovoltaic Incentive Program (Schedule 107) 2019 Annual Report; Docket No. 19-035-25*

Dear Ms. Saba:

The Public Service Commission of Utah (PSC) reviewed the May 31, 2019 filing by Rocky Mountain Power (RMP) of its Utah Solar Incentive Program ("Program") 2019 Annual Report ("Report"). The Report was filed in compliance with the PSC's October 1, 2012 Report and Order in Docket No. 11-035-104 authorizing PacifiCorp to implement a solar incentive program. This is the sixth report provided pursuant to the PSC's direction and presents information on Program results and account balances through May 8, 2019. This Report provides summarized information from the 2013, 2014, 2015 and 2016 Program years. Pursuant to Utah Code Ann. § 54-7-12.8(4), the Program has ended and RMP stopped taking new applications for Program incentives on December 31, 2016. Additionally, the PSC reviewed the comments filed by the Division of Public Utilities (DPU) and the Utah Office of Consumer Services (OCS) on July 1, 2019, and the reply comments filed by RMP on July 16, 2019.

The DPU provided a summary of the Program including reporting requirements and recent PSC decisions. The DPU concluded the Report complies with the PSC's reporting requirements and recommends the PSC acknowledge the Report. The OCS provided a summary of the Report and also recommends acknowledgment.

Based on the PSC's review of the Report and the recommendations filed by the DPU and the OCS, the PSC acknowledges the Report as complying with the relevant reporting requirements.

Sincerely,

/s/ Gary L. Widerburg
