Re: In the Matter of Rocky Mountain Power's Semi-Annual Demand-Side Management (DSM) Forecast Reports – Docket No. 19-035-28

Dear Mr. Widerburg,

In its order from Docket No. 09-035-T08 dated August 25, 2009 ("Order"), the Public Service Commission of Utah ("Commission") approved the Phase I stipulation agreed to by parties in the docket and filed with the Commission on August 3, 2009. As specified in the stipulation, Rocky Mountain Power ("Company") is required to provide to the Commission and Advisory Group on a semi-annual basis a Utah DSM tariff rider balancing account analysis similar to that originally provided by the Company in Advice No. 09-08. This analysis is to include historical and projected monthly DSM expenditures, rate recovery and account balances; as well as historical and projected monthly DSM expenditures by program, Schedule 193 revenue and self-direction credits.

Accordingly, enclosed for electronic filing is a DSM balancing account analysis, provided as Attachment A, reflecting actual results through May 2019 and projected results through December 2020 from approved programs and Schedule 193 revenue. As illustrated in Attachment A, the balancing account from Schedule 193 revenue was in excess of DSM expenditures by approximately \$7.75 million as of May 2019, and is projected to be in excess of DSM expenditures by approximately \$8.0 million as of December 2020 using the current Schedule 193 collection rate of 3.54 percent.

Notwithstanding the current over-collected and projected balances, the Company does not intend to propose a mid-year rate adjustment to Schedule 193 at this time. Given that the 2019 Integrated Resource Plan ("IRP") has not yet been published, the 2020 forecast is based on the 2019 forecast. It is recommended to continue monitoring the balancing account, and propose an adjustment in the 4<sup>th</sup> quarter of 2019, if necessary, based on the forecast report for the 2020 calendar year using the 2019 IRP. The Company discussed this information and recommendation with the DSM Steering Committee on June 25, 2019. Steering Committee members did not express concerns with the recommended approach.
