Salt Lake City and Park City are parties to Renewable Energy Service Contracts with Rocky Mountain Power before the Commission for approval in this docket. Salt Lake City and Park City have not intervened as parties, but they are filing these public comments to express gratitude to Rocky Mountain Power and others for working closely and collaboratively with them over many months to help them take this significant new step towards meeting their sustainability goals. Salt Lake City and Park City also appreciate the efforts of the Division of Public Utilities in reviewing and commenting on the contract and of the Commission in quickly considering them.

Salt Lake City and Park City are grateful that Utah lawmakers and regulators, Rocky Mountain Power, and others have recognized the need for new and creative ways for customers to take meaningful steps toward adding incremental renewable energy

projects to the portfolio of resources that serve their loads. Salt Lake City and Park City encourage the Commission to approve the Schedule 34 Renewable Energy Service Contracts.
