Re: **Clarification Letter – Docket No. 19-035-T08**
In the Matter of Rocky Mountain Power's Proposed Schedule 73, Subscriber Solar Program Rider Optional

On September 18, 2019, Rocky Mountain Power (the “Company”) submitted a Supplemental Filing with proposed revisions to Sheets 73.1 through 73.4. On October 25, 2019, the Company submitted updated revisions to Sheets 73.1, 73.2, and 73.3 in its reply comments based on recommendations made in party comments. The Public Service Commission of Utah (“Commission”) approved the proposed revisions to Sheets 73.1 through 73.3 in its order issued November 18, 2019.

The Company has since realized that updated revisions to Sheet 73.4 were omitted from reply comments and thus did not get approved in the Commission’s November 18, 2019 order. In the Supplemental Filing, paragraph 14 from Sheet 73.3 was pushed onto Sheet 73.4. In the Company’s reply comments however, paragraph 14 reverted back onto Sheet 73.3, but an updated Sheet 73.4 was not included to remove paragraph 14. Accordingly, attached hereto is an updated Sheet 73.4 that maintains the changes requested in the Supplemental Filing with paragraph 14 removed. The Company respectfully requests the Commission approve the proposed changes to 73.4 with the same effective date as the other sheets, January 1, 2020.

Additionally, pursuant to the Commission’s November 18, 2019 order, the Company will plan on submitting a compliance filing to update the Schedule 73 tariff sheets with an effective date consistent with the completion of the billing system upgrade.

Sincerely,

A handwritten signature in blue ink that reads "Michael S. Snow".

Michael S. Snow
Manager, Regulatory Affairs

ELECTRIC SERVICE SCHEDULE NO. 73 - Continued

15. Except for the Energy Balancing Account (“EBA”) adjustment rate schedule, as described in this paragraph, all contracted Subscriber Solar Energy ~~Block~~-kWh and associated charges in a billing month will be included in the calculation of any adjustment rate schedules contained in a Customer’s applicable tariff schedule. The EBA adjustment rate schedule will apply to all contracted Subscriber Solar Energy ~~Block~~-kWh and associated charges for the twelve (12) months immediately following the date upon which the Subscriber Solar Program solar resource begins commercial operation. Thereafter, the EBA adjustment rate schedule will continue to apply only to energy billed under the customer’s applicable service rate schedule that is not purchased through the Subscriber Solar Program.
16. Customers being served under this schedule may not participate in Net Metering or Transition Program for Customer Generators.

ELECTRIC SERVICE REGULATIONS: Service under this Schedule will be in accordance with the terms of the Electric Service Agreement between the Customer and the Company. The Electric Service Regulations of the Company on file with and approved by the Public Service Commission of the State of Utah, including future applicable amendments, will be considered as forming a part of and incorporated in said Agreement.
