Subject: Action Request for Garkane 20-028-01

To: Fred Nass <fnass@utah.gov>

It appears that the issues to be addressed in the Garkane complaint are related to the treatment of capital credits. We have verified that Garkane has filed annual reports with the Division for the years in question and the reports do include Tab 17 and 17a which specifically address capital credits. The last paragraph of the action request asked DPU to provide copies of Garkane's Annual Reports for 2016 through 2019. Does the Commission want to see the entire report or just the information provided in Tab 17 and 17a dealing with the capital credits.
