

EBA Additional Filing Requirement 19

Please provide a PacifiCorp Securities and Exchange Commission (SEC) Form 10-K / Semi-Annual / Energy Balancing Account (EBA) Reconciliation: see “DPU Exhibit 1.9 SR” which is the Rocky Mountain Power (RMP) Excel attachment response to DPU 10.1, Docket 12-035-67. Given the timing of the March 15 EBA filings and the release of the Company’s SEC Form 10-K and Semi-Annual report, this reconciliation may need to be provided after the March 15 filing. As such, this reconciliation will be provided as soon as available.

Response to EBA Additional Filing Requirement 19

Note: for clarification purposes, for responses to EBA Additional Filing Requirement 19, the Company provides reconciliations to PacifiCorp’s Federal Energy Regulatory Commission (FERC) Form 1 for calendar year 2019 (which is typically filed with FERC mid-April each year), and its Utah Results of Operations (ROO) for calendar year 2019 (which is typically filed with the Public Service Commission of Utah (UPSC) late-April / early May each year). Based on this clarification, the Company responds as follows:

Due to the timing of this energy balancing account (EBA) filing, a reconciliation of actual net power costs (NPC) with the Company’s December 2019 ROO report and 2019 FERC Form 1 is not possible at this time. The Company will supplement this response with these reconciliations when the data becomes available.
