

## **RMP 2020 GRC Filing Requirements**

### **R746-700-23-A**

An electrical corporation that has included power costs in a forecasted test period shall also file with the Commission the following information or documents relating to its power cost projections with a general rate case application. An applicant will provide an index which identifies where in the application, testimony, exhibits, documents, information, data, etc. filed with the application the applicant has responded to and complied with these R746-700-23 rule requirements. The index may be presented in testimony, as a table embedded in testimony, as an exhibit to testimony, or in any other manner so long as it is clearly identified. Contemporaneously with the filing of an application, an electrical corporation shall provide the following information and documents to the parties specified in R746-700-1.E.3, unless the information or document is already included in or with the application.

### **Response to R746-700-23-A**

Please refer to Attachment 1 to the Application in this Docket. Also, each of the responses to the subparts of Filing Requirement R746-700-23 provides reference to the specific file that contains net power costs (NPC) model inputs and the NPC work papers supporting the NPC study. The NPC study output itself is included with the Company's response to Filing Requirement R746-700-23-C.1, specifically Confidential Attachment R746-700-23-C.1, as well as all related NPC work papers supporting the direct testimony of Company witness, David G. Webb.

Confidential information is subject to R746-1-601–603 of the Commission Rules.
