Utah Public Service Commission

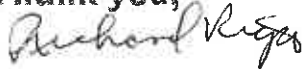

RECEIVED

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

With the threats from the Democratic Party of eliminating oil and fossil fuels within two years, it appears the gas and oil industry is looking to reap all the money they possibly can, while they can. Along with the Social Security we worked for all our lives, that the Democrats want to take back, it seems senior citizens will not be able to withstand the proposed rate hikes that are being proposed by the gas and oil industry. Utility expenses, food, doctor visits and medicine all increase at a much faster rate than Social Security increases and that would just be another burden.

Thank you,

Richard Rigg

1632 Shivwits Drive

St. George, Utah 84790

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. As we all have been impacted by this horrible pandemic, and as a senior citizen on a limited income, I urge Rocky Mountain to stop making increases and making it unaffordable for the majority of people.

Sincerely,

Ms. Jenny Cox
