Re: **Docket No. 20-035-15**, Rocky Mountain Power's December 2019 Results of Operations

Recommendation (No Action Required)

The Utah Division of Public Utilities (DPU) recommends the Utah Public Service Commission (PSC) include the review of Rocky Mountain Power's (RMP) 2019 Results of Operations (2019 ROO) with the DPUs review of RMPs General Rate Case Docket No. 20-035-04.

Issue

On April 30, 2020, RMP filed its 2019 ROO with the PSC. On the same day, the PSC issued an Action Request for the DPU to investigate the filing for compliance and report its findings and recommendation to the PSC by May 29, 2020. This memorandum represents the DPUs response to the PSCs Action Request.

On May 9, 2020, RMP filed its general rate case in Docket No. 20-035-04. The DPU will be conducting its review of the 2019 ROO during its review of the general rate case as the base period. The DPU requests the review of the 2019 ROO be in conjunction with the DPUs review of the general rate case base period.
