

ChargePoint Data Request 2.11

Does the Company intend to require site hosts that receive make-ready incentives to share charger data with the Company as a condition of receiving incentives? If so, please specify each type of data that the Company proposes to require site hosts to provide to the Company.

Response to ChargePoint Data Request 2.11

Yes, the Company intends to require data sharing from customers who receive make-ready investments or incentives. The data at a minimum will include charging event information (location, date and time, duration, number of events) and charging energy information (kilowatt-hours (kWh) and kilowatts (kW)). The Company is not interested in financial information from charging events.
