**Re:** **Docket No. 20-035-34**, Application of Rocky Mountain Power for Approval of Electric Vehicle Infrastructure Program

## Recommendation Order Scheduling Conference

On July 25, 2025, the Public Service Commission of Utah (Commission) asked the Division of Public Utilities (Division) to review Rocky Mountain Power's (RMP) application for approval of its first Program Review of its Electric Vehicle Infrastructure Program (Program) and make recommendations.<sup>1</sup> The Commission asked the Division to report back by August 25, 2025.

The Division's initial review leads it to believe that a scheduling conference is warranted to allow parties the opportunity to review the Program's first three years of operation and explore the changes RMP is proposing to the program.

The Division requests the Commission notice a scheduling conference in this matter.
