On June 22, 2021, Matthew Gosselin (“Complainant”) filed a formal complaint (“Complaint”) with the Public Service Commission (PSC) against Rocky Mountain Power (RMP). The Complaint did not specify the basis for the Complaint, but the complaint report submitted in connection with the Division of Public Utilities’ informal complaint process indicates Complainant disputes RMP’s resetting of his solar export credits on an annual basis. On June 22, 2021, the PSC issued a Notice of Filing and Comment Period, allowing RMP an opportunity to respond and Complainant an opportunity thereafter to file a reply in support of the Complaint.

On July 22, 2021, RMP filed a Motion to Dismiss and Answer (“Motion”). RMP asks the PSC to dismiss the Complaint because Complainant has not alleged RMP violated any rule, statute, or tariff provision. Complainant did not submit a reply in support of the Complaint.¹

Having reviewed the Complaint, the DPU’s informal complaint report, and RMP’s Motion, the PSC finds and concludes Complainant has not alleged RMP violated any administrative rule, order, statute, or applicable provision of RMP’s tariff. In fact, RMP’s annual resetting of the Complainant’s solar export credits appears to be in compliance with PSC orders. Accordingly, the Motion is granted and the Complaint is dismissed.

¹ The PSC’s Notice of Filing and Comment Period required Complainant to submit a reply on or before August 6, 2021. As of the date of this order, Complainant had not filed a reply or any other submission with the PSC since the initial Complaint.
