Re: Advice Letter No. 21-05, *Rocky Mountain Power's Proposed Tariff Revisions to Electric Service Schedule No. 135, Net Metering Service*; Docket No. 21-035-T07

Dear Ms. Saba:

The Public Service Commission of Utah (PSC) reviewed the May 18, 2021 filing by Rocky Mountain Power (RMP) proposing changes to Electric Service Schedule No. 135, Net Metering Service Sheet No. 135.4 ("Tariff Revisions"). The Tariff Revisions update the rates applicable to large non-residential customers who select the Federal Energy Regulatory Commission (FERC) Form No. 1 compensation method to receive credit for net excess generation. RMP states the Tariff Revisions are being made pursuant to the PSC's February 12, 2009 Report and Order Directing Tariff Modifications in Docket No. 08-035-78 ("2009 Order").

The PSC also reviewed the June 1, 2021 comments filed by the Division of Public Utilities (DPU) and RMP's June 8, 2021 reply comments. DPU states that there is negligible difference between the information in RMP's filing and its FERC Form 1, and that the Tariff Revisions comply with the 2009 Order. Based on those observations, DPU recommends the PSC approve the Tariff Revisions with an effective date of July 1, 2021. Additionally, DPU requests that in future Schedule 135 update filings RMP include the same supplemental data as RMP provided in DPU Data Request 1.1. DPU states this data will facilitate its reconciliation of the filed data with RMP's FERC Form 1. In reply RMP agreed with DPU's recommendation and committed to provide the requested information with its future annual filings.

Based on the PSC's review of the filing and DPU's comments and recommendation, RMP's First Revision of Sheet No. 135.4 is approved as filed, effective July 1, 2021.

Sincerely,

/s/ Gary L. Widerburg  
PSC Secretary
