**Re:** **Docket No. 22-035-10**, PacifiCorp's Results of Operations Report for the Utah Jurisdiction for the twelve months ended December 31, 2021.

## Recommendation (Request for Extension)

On April 27, 2022, Rocky Mountain Power (Company) filed its Results of Operations for the twelve months ended December 31, 2021, along with its confidential Wind Resources Report. On April 27, 2022, the Public Service Commission (Commission) issued an action request for the Division to review for compliance and to make recommendations with a due date of May 27, 2022.

After initial review, the Division has determined that the review will require requests for information from the Company, modeling of spreadsheets, and additional review procedures. In past reviews, the Division has found that this additional work requires an additional two to three months. Therefore, the Division is requesting that the Commission extend the due date of the Division's response to August 31, 2022. This should allow the Division sufficient time to conduct a proper review and make recommendations.
