Re: *Rocky Mountain Power's Proposed Tariff Revisions to Electric Service Schedule No. 37, Avoided Cost Purchases from Qualifying Facilities, Docket No. 22-035-T06*

Dear Ms. Saba:

The Public Service Commission of Utah (PSC) reviewed the April 29, 2022 Tariff Filing (“Filing”) submitted by Rocky Mountain Power (RMP). The Filing revises RMP’s Electric Service Schedule No. 37, Avoided Cost Purchases from Qualifying Facilities Sheet Nos. 37.4 through 37.7. The Filing incorporates the March 31, 2022 Official Forward Price Curve and the 2021 Integrated Resource Plan preferred portfolio and revises the rates for base load, fixed solar, tracking solar, and wind facilities.

The Division of Public Utilities (DPU) submitted comments on May 16, 2022 recommending the PSC approve RMP’s revisions to Schedule 37. DPU identified no significant issues with the changes or calculations and concludes that the revisions were consistent with the requirements set forth in the PSC’s February 12, 2009 and November 28, 2012 orders in Docket Nos. 08-035-78 and 12-035-T10, respectively.

Based on the PSC’s review of the Filing and DPU’s recommendation, RMP’s changes to Schedule 37 Sheet Nos. 37.4 through 37.7 are approved as filed, effective June 1, 2022.

Sincerely,

/s/ Gary L. Widerburg  
PSC Secretary
