Garkane states its Board of Directors approved the Tariff Revisions at a properly noticed public meeting on October 23, 2023.

The Division of Public Utilities (DPU) filed comments on November 29, 2023, and recommends the PSC accept and acknowledge the Tariff Revisions. DPU asserts that the changes to the twenty-two rate schedules include slight increases in base rates, energy charges, on-peak rates, and off-peak rates. Additionally, DPU asserts that some monthly charges were eliminated. DPU states that Garkane notified customers of the Tariff Revisions through weekly notices published throughout its service territory, submitted both clean and marked-up versions of the Tariff Revisions, and provided 30 days' notice to the PSC. DPU determined the Tariff Revisions conformed with Utah Admin. Code R746-405-2, with one exception. DPU states that Garkane failed to label multipage tariff sheets with the word "Continued" as required in Utah Admin. Code R746-405-2(C)(3), but believes the error is not substantive and recommends (1) the PSC acknowledge the Tariff revisions, and (2) that Garkane correct the error in future filings.

Based on the PSC's review of the Tariff Revisions and DPU's comments, the PSC acknowledges the Tariff Revisions as complying with Utah Code Ann. § 54-7-12(8) and makes them available for public inspection, consistent with Utah Code Ann. § 54-7-12(7)(d).

Sincerely,

/s/ Gary L. Widerburg
