RE: Moon Lake Electric Association, Inc.'s 2023 Wildland Fire Protection Plan ("WFPP")  
Summary ("WFPP Summary") and document revision

Dear Mr. Gary Widerburg:

Moon Lake Electric Association, Inc. ("MLEA") has been proudly serving the local communities within the Uintah Basin since 1938 for all of their electricity needs. As such, MLEA is dedicated to protecting these communities by implementing effective mitigation measures thereby reducing the risk of disaster and ruin associated with wildfires.

Pursuant to Utah Code § 54-24-203(2) and § 54-24-203(4), MLEA respectfully submits this annual WFPP Summary and document revision which was approved by MLEA's Board of Directors at their October 25, 2023 Regular Board Meeting. The WFPP Summary contains the following updates:

- Expenses incurred during 2023 to implement the WFPP.
- Details of completed plan implementation activities during 2023.
- Plan implementation (completed and scheduled) for high-risk areas identified by MLEA and mitigation strategies for those locations.
- Any modifications to the WFPP during 2023 and the reason for said changes.
- Pursuant to §54-24-203(4) and §54-24-203(3) of state code Moon Lake Electric performed a full review of its WFPP.

Please feel free to reach out to me at [cmiles@mleainc.com](mailto:cmiles@mleainc.com) with any related concerns or questions.

Submitted respectfully,

Curtis Miles  
Operations Manager for MLEA
