To: Utah Public Service Commission <psc@utah.gov>;
From: Joan Entwistle, customer of Rocky Mountain Power
Re: Docket #23-035-10, PacifiCorp's 2023 Integrated Resource Plan
-and- the Commission's 3-3-2023 Notice and Request for Comments
related to Rocky Mountain Power's 3-2-2023 Request for Extension

March 10, 2023

Dear Commissioners,

I am a customer of Rocky Mountain Power. As a resident of Summit County, Utah, I look forward to getting 100% of my electricity from clean renewable sources by 2030. I understand that the program will be adding new resources to the existing renewable resources. I would like to see the 2023 Integrated Resource Plan show the portion of electricity generation for the communities that will be part of the Community Renewable Energy Program, and how that clean energy is accounted for in the plan. This could be up to a third of the power supplied by RMP in Utah. The customers in these communities will be paying additional cost even though the cost of new renewable energy is lower than the existing energy mix.

In order to provide this additional information and analysis in the models, I support the Pacifcorp request for an extension.

Sincerely,
Joan Entwistle
