Dear Commissioners,

Please withhold your approval of PacifiCorp's 2023 Integrated Resource Plan and require the corporation to make changes that serve the best interests of Rocky Mountain Power customers and Utah taxpayers.

RMP-PacifiCorp resource choices continue to needlessly drive climate change and impose an array of associated impact costs on my family and community. The 2023 IRP relies too heavily on fossil fuels when clean renewable energy resources are available. A legitimate IRP would acknowledge the full range of climate change impacts linked to RMP-PacifiCorp's coal and methane [natural gas] burners.

Please require the corporation to take the following IRP-related actions:

~ Integrate all costs and resource items of PSC dockets #23-035-27, #23-035-30, and #23-035-40 into the 2023 IRP docket, #23-035-10.

~ Identify, and incorporate into the IRP docket for resource vetting, all other costs associated with RMP-PacifiCorp's combustion of fossil fuels for electricity generation.

~ Reactivate the suspended RFP process for procuring solar, wind, and storage resources.

~ Prepare a supplemental IRP document that includes the newly incorporated information and actions requested here, and that reevaluates the corporation's preferred energy resource portfolio.

Thank you.

## Rocky Mountain Power's IRP

1 message

---

**Mark D Larsen** <mark.larsen@casteyanqui.com>  
To: PSC@utah.gov

Wed, Oct 18, 2023 at 3:39 PM

Commissioners:

I am writing to strongly request that you reject RMP's Integrated Resource Plan. Indeed, the utility has attempted to obfuscate how harmful its proposal is by separating the issues into separate dockets.

Consequently, the PSC needs to integrate all costs and resource items of PSC dockets #23-035-27, #23-035-30, and #23-035-40 into the 2023 IRP docket, #23-035-10.

Make no mistake: we are in an escalating climate crisis and can no longer allow utilities like RMP to continue to burn fossil fuels. You serve as our PUBLIC Services Commission, not a corporate services commission, and always need to make your decisions based upon what is in the best interest of citizens —not executives, board members, or stock holders.

To be quite frank, if I were in your shoes, I would encourage our state leaders to turn RMP into a public utility, like the Tennessee Valley Authority. After decades of hoping RMP would wake up to our climate emergency, we can no longer afford to let them put a higher priority on profit over people and planet. Enough is enough!

Sincerely,

Mark D Larsen  
Ivins, Utah

Wed, Oct 18, 2023 at 4:48 PM

Dear Commissioners,

Please reject PacifiCorp's 2023 Integrated Resource Plan and require the corporation to make changes that serve the best interests of Rocky Mountain Power customers and Utah taxpayers.

RMP-PacifiCorp's choice to continue burning coal threatens our way of life. This is the time to be moving *away* from coal, but their 2023 IRP relies too heavily on fossil fuels when clean renewable energy resources are available. A legitimate IRP would acknowledge the full range of climate change impacts linked to RMP-PacifiCorp's coal and methane [natural gas] burners.

Please require the corporation to take the following IRP-related actions:

- ~ Integrate all costs and resource items of PSC dockets #23-035-27, #23-035-30, and #23-035-40 into the 2023 IRP docket, #23-035-10.
- ~ Identify, and incorporate into the IRP docket for resource vetting, all other costs associated with RMP-PacifiCorp's combustion of fossil fuels for electricity generation.
- ~ Reactivate the suspended RFP process for procuring solar, wind, and storage resources.
- ~ Prepare a supplemental IRP document that includes the newly incorporated information and actions requested here, and that reevaluates the corporation's preferred energy resource portfolio.

Sincerely,

Gerrit van Langeveld
