Re: *Rocky Mountain Power's 2023 Net Metering and Interconnection Report;*
Docket No. 23-035-32

Dear Ms. Saba:

The Public Service Commission (PSC) reviewed Rocky Mountain Power's (RMP) June 30, 2023 filing of its 2023 Net Metering, Customer Generation and Interconnection Report ("Report"), Attachments A, B, C, and D, and the associated workpapers. The Report was filed pursuant to the PSC's November 30, 2010 Order in Docket No. 10-035-58, *In the Matter of the Filing of Rocky Mountain Power's Net Metering Report for the period April 1, 2009 to March 31, 2010*, as modified by the PSC's September 24, 2015 order in Docket No. 15-035-64, its September 29, 2017 order in Docket No. 14-035-114, and the supplemental information requested by the parties in Docket Nos. 17-035-31 and 18-035-28.

The PSC also reviewed the August 4, 2023 comments from the Division of Public Utilities (DPU). DPU recommends the PSC acknowledge that the Report complies with the PSC's ordered reporting requirements. No other comments were filed.

Based on the PSC's review of the Report, DPU's comments and recommendations, and there being no opposition, the PSC acknowledges that the Report complies with the PSC's reporting requirements.
