Commission Administrator

**Re: Docket No. 23-035-36**  
**Notice Pursuant to *Utah Code Ann. § 54-17-502(2)(e)***

Dear Commissioners:

Pursuant to Utah Code Ann. § 54-17-502(2)(e), Rocky Mountain Power (the “Company”) hereby advises the Public Service Commission of Utah (“Commission”) that at this time it does not reasonably anticipate that it will need to acquire or commence construction of any renewable energy resources during 2024 other than the resources included in the 2022 All Source Request for Proposals approved by the Commission on April 22, 2022, in Docket No. 21-035-52.

The Company notes that the Action Plan in the 2023 Integrated Resource Plan includes repowering projects at Rock River (50 MW) and Foote Creek II-IV (43 MW) wind projects located in Wyoming<sup>1</sup>. The Company will provide the required notice under Utah Code Ann. § 54-17-502(6)(b). Also, the Company may pursue other renewable resource projects if the opportunity arises and will provide the Commission with notice if required.

Please feel free to direct any inquiries regarding this matter to Jana Saba, at (801) 220-2823, or me at the number indicated above.

Sincerely,

Joseph Dallas  
Senior Attorney  
PacifiCorp

cc: Richard Garlish
