CANCELS NINTH REVISED SHEET NO. 1

ELECTRIC SERVICE  
**SCHEDULE NO. 1**  
RESIDENTIAL SERVICE

AVAILABILITY: At any point on the District's interconnected system where there are facilities of adequate capacity.

APPLICATION: This Schedule is for alternating current electric service supplied at approximately 120 or 240 volts through one kilowatt-hour meter at a single point of delivery for all service required on the premises for residential purposes.

When conditions are such that service is supplied through one meter to more than one dwelling or apartment unit, the charge for such service will be computed by multiplying the minimum charge by the maximum number of dwelling or apartment units that may be served.

This Schedule is not applicable to seasonal service.

MONTHLY BILL:

CUSTOMER CHARGE:

\$20.75 per single phase service connection

ENERGY RATE:

\$0.119 per kWh all kWh from 0-500 kWh

\$0.137 per kWh all kWh from 501-1,000 kWh

\$0.152014 per kWh all kWh from 1,001+ kWh

ELECTRIC SERVICE  
**SCHEDULE NO. 8**  
PRIVATE AREA LIGHTING

AVAILABILITY: At any point on the District's interconnected system.

APPLICATION: This Schedule is for electric service required for private outdoor lighting by LED lamps where service is supplied from a District-owned overhead wood pole system.

MONTHLY BILL:

RATE:

Nominal Lamp Rating		
Initial Lumens	Watts	
7,000	175	\$17.06 per lamp

The unit charge includes maintenance and energy costs for the unit. Customer will be responsible for all costs of facility installation.

SPECIFICATIONS AND SERVICE: Each lamp will be mounted on an existing pole. If additional facilities are required, customer will be required to pay for those facilities. The type and kind of fixtures and supports will be in accordance with the District's specifications. Service includes energy supplied from the District's overhead circuits, maintenance and lamp and glassware renewals. Lamps will be controlled by the District to burn each night from dusk to dawn.

CONTRACT PERIOD: Five years or longer.

ELECTRIC SERVICE  
**SCHEDULE NO. 9**  
ADJUSTMENT FOR **INCREASED** (or REDUCED) PURCHASED POWER  
COSTS

APPLICATION: This Schedule is applicable to all kilowatt-hours supplied to Customers of South Utah Valley Electric Service District.

MONTHLY ENERGY CHARGE ADJUSTMENT: Energy charges for service supplied under all Tariff rate schedules and contract rates except Schedule 8 Private Area Lighting as set forth in each currently effective tariff rate schedule and/or the contract rate may be adjusted by a monthly variation in the average cost of power which shall be calculated as follows:

RUNNING 3 MONTH AVERAGE-\$0.09431 = PCA

Where:      RUNNING 3 MONTH AVERAGE = Average of total wholesale power costs and fuel costs for the previous 3 months.  
\$0.09431 = Base Power Cost (already included in the rate structure).  
PCA = factor to adjust all rates and charged on the current billing cycle except Schedule 8 Private Area Lighting.

RENEWABLE GENERATING SYSTEM: A system or facilities that use energy derived from one of the following: solar photovoltaic and solar thermal energy; wind energy; biogas produced from organic matter; or geothermal energy.

MONTHLY BILL:

CUSTOMER CHARGE:

\$22.75 per single phase service connection

ENERGY RATE (Electricity Supplied by District):

\$0.119 per kWh all kWh from 0-500 kWh

\$0.137 per kWh all kWh from 501-1,000 kWh

\$0.152014 per kWh all kWh from 1,001+ kWh

NFiT RATE:

\$(0.051) per kWh fed back to the District's electrical distribution grid.

BILLING PERIOD: Customers on this Schedule 10 will have their net meters read with each month's billing cycle.

BILLING PERIOD CHARGES/CREDITS: Electricity supplied by the District during each month's billing cycle is charged at the rates and fees listed above. Electricity generated by an eligible customer-operated renewable energy generator and fed back to the District's electrical distribution grid, if any, during each month's billing cycle is credited against the customer's kWh usage at the NFiT rate listed above. Credits will only be applied against customer's energy usage (kWh charges). Credits remaining after they have been applied to customer's energy usage will be carried forward from one month to the next. Any credit remaining at the end of each March billing cycle will be zeroed out with no further liability to the District and without compensation to the customer.

MINIMUM CHARGE:

The monthly minimum charge shall be the "CUSTOMER CHARGE" as well as any applicable taxes.

SPECIAL CONDITIONS:

1. Each customer-generator shall provide at the customer's expense all equipment necessary to meet applicable local, county, state and national standards regarding electrical and fire safety, power quality, and interconnection requirements established by the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories. Customer shall also comply with all local, county, state and national codes and permitting standards.
2. The District may not be held directly or indirectly liable for permitting or continuing to permit an interconnection of a customer generation system to the District's system or for an act or omission of a customer for loss, injury, or death to a third party.
3. The District may test and inspect an interconnection at times that the electrical corporation considers necessary to ensure the safety of electrical workers and to preserve the integrity of the electric power grid.
4. The electrical function, operation, or capacity of a customer generation system, at the point of connection to the District's distribution system, may not compromise the quality of service to the District's other customers. Customer will be responsible to pay for any upgrades or changes that the District must make to its distribution system in order to fix power quality issues created by customer's generation system.
5. If a customer has more than one facility on customer's premises, the total capacity of all customer-operated renewable generating systems shall not exceed 10 kW.
6. The District shall not be held liable for any costs associated with the maintenance, removal, or disposal of customer's generation system.
7. This Net Feed-In-Tariff Schedule No. 10 will be closed and re-evaluated once distribution system installed capacity of 1,250 kW is reached. All Net Feed-In Tariff Applications will be processed on a first-come, first-serve basis.
