Power bill increase

1 message

Matt Beynon <matt.beynon@yahoo.com>

Thu, Aug 8, 2024 at 5:16 PM

To: psc@utah.gov

I heard that Utah power has slipped in extra fees increasing our power bills. My bill increased 100 dollars from last year using less energy. This is ridiculous that we are completely being taken advantage of by our power companies.

Thanks

Matt Beynon

Hello,

I received your email from others to help with the increase of my electric bill. I have solar panels and our bill is never over 65.00 in the summer and this month it went up to 107.00 which is a big increase. Nothing has changed in my usage from last month. Is this legal and are they able to do this? What can we do? Thank you!

To: "psc@utah.gov" <psc@utah.gov>

Good evening,

I recently became aware that my power bill doubled this month in comparison with other months of similar usages and conservation. Rocky Mountain Power is taking advantage of Utahns, and I implore the PSC to reconsider this recent approval from July 2024. This type of exploitation affects middle and low income households the most, and as a struggling student who came to Utah for its reputation of supporting young adults and disadvantaged populations, I find this to be completely unacceptable.

Sincerely,

Audrey Laney

To: psc@utah.gov

Good morning,

I received an email yesterday about my upcoming energy bill and it appears the rate has dramatically increased beyond what we had been notified about months ago.

How can you increase rates so dramatically autonomously and without notification?

This is unreasonable and unaffordable. Please correct my bill to the previous rate so I can afford to power my house.

Thanks,

Julia

This month my electric bill shot up \$110 from June. Now I understand that some of that comes from the heat, but not \$110 worth. I've seen others across social media talking about their bills increasing for no reason as well. This is a problem. Others mentioned I should email here about the issue.

Wildfire safety & preparedness

Safety is a community effort that takes all of us working together. At Rocky Mountain Power, we're continuing to take steps to mitigate wildfire risks.

You can take action at home: Make a plan, create defensible space around your home, and plan for your family's needs in the event of an emergency. Consider a backup generator if you have medical equipment. Check your local emergency management or public safety website for more information on how to sign up for alerts. It's also important for you to update your contact information and sign up for alerts with us.

Visit our wildfire safety web page to prepare for wildfire season at RockyMountainPower.net/WildfireSafety.

Seguridad y preparación

La seguridad es un esfuerzo comunitario que requiere la colaboración de todos. En Rocky Mountain Power seguimos tomando medidas para mitigar el riesgo de incendios forestales.

Aquí hay unos pasos para prepararse: Cree un plan, identifique un espacio defendible alrededor de su casa y prevea las necesidades de su familia en caso de emergencia. Considere la posibilidad de instalar un generador de reserva si tiene

Electric Bill Increases

1 message

Hosanna Clay <hosanna.clay@gmail.com>
To: "psc@utah.gov" <psc@utah.gov>

Fri, Aug 9, 2024 at 8:35 AM

To whom it may concern,

I recently noticed a large % jump in our electric bill for the month, which was not tied to increase usage. Upon further research, this appears to be due to a bill that was just passed this month and put into effect. I oppose the copious and egregious abuse of the paying customers of Utah who are forced to use Rocky Mountain Power. The public did not vote for this, and my power bill is over \$50 more in a single month than it has ever been.

Please respond with who I can speak with, and where we can protest these changes that are not in the best interest, or the voice of the people living here in Utah and giving you power to protect our best interests.

Thank you for your time,

Hosanna Clay, FNP-c

We need your help intervening for our electricity increase in charges! My jaw dropped when I saw how much my electric bill jumped from one month to the next. Please pressure the utility providers to be considerate and if companies must inflate the prices, they do a 5% increase not 25%. Residents don't have that kind of extra money. This is what happens when us the residents don't have many providers. Rocky Mountain is a monopoly.

Fri, Aug 9, 2024 at 9:15 AM

Psc,

Curious how you're going to rectify the 50% hike of energy bills without public knowledge. It seems the 1.6% was not exactly accurate. Please reconsider this rate increase especially during a time where everyone is already struggling. If your aim is to make people default on their utility bills and have services shut off then I guess this is a great way to do exactly that. A 100 dollar increase from one month to the next is absolutely ridiculous and not sustainable for Utah citizens.

Hello,

I am reaching out due to the recent rate increases by Rocky Mountain power. I am in my late 20's and own my first home, as you know, your first home you budget for each and every bill you have in order to stay afloat. This sudden increase has left my budget in shambles and honestly has taken food off of my table. Not only that but it feels like we are being advantage of, we are forced to use RMP and pay whatever they say or we go without, I don't see how a sudden rate increase that doubles the majority of Utahns bills is fair when they monopolize this market? I hope that you are able to help the patrons of Utah bring this back down to a fair value.

Kiley Barker <kileybarker24@gmail.com>
To: "psc@utah.gov" <psc@utah.gov>

Fri, Aug 9, 2024 at 12:03 PM

Good afternoon,

I hope this email finds you well. I have noticed an over 3.5x increase in my electric bill since this time last year. My bill has increasingly begun to increase, with no increase in the use of power in the home, by 25% each month due to the Energy Balancing Account which was sold at 1.6%. My bill this time last year was only about \$80 which is now projected to be \$300 with fewer people living in the home and therefore using less power. This is unacceptable, my electric bill is no longer affordable the way it once was. I advise the PSC to reconsider this approval taking place in July 2024.

Sincerely,
Kiley Barker

RMP increase

1 message

Alli Foley <turneralli@gmail.com>

Fri, Aug 9, 2024 at 12:52 PM

To: psc@utah.gov

Hello,

I was shocked to see my Rocky Mountain Power "Energy Balancing Account" increase by 50% from June to July 2024. I recall this being sold to Utahns as a less than 2% increase. In addition to the massive "Summer Block 1 and 2" charges that appear at this time and nearly triple my bills, this goes above and beyond.

I'm reporting this as predatory behavior by Rocky Mountain Power, that is currently going unchecked by our legislature and other citizen protections.

Power Bill Increase concerns

1 message

Brooke Peavley <brookepeavley@yahoo.com>

Fri, Aug 9, 2024 at 7:48 AM

To: psc@utah.gov

My most recent power bill is attached (password is zip code: 84020). Please notice the 300% increase from the previous month. I live in a modest 2,000 sqft single family home with 2 people. How is it possible that my basic power is costing me almost \$300 a month? This is a fraudulent monopoly and borderline unaffordable for the average family.

Do I have other options for power? How is a respectable Utah company allowed to do this without any approval or notice?

Please advise on how to get this resolved, for myself and every other resident.

Thank you,
Brooke Peavley

Fri, Aug 9, 2024 at 8:05 AM

To: "psc@utah.gov" <psc@utah.gov>

Hi there!

I notice a MASSIVE increase in my Rocky Mountain Power bills in the last 3 months.

June's bill was \$49.07

July's bill was \$139.86

August's bill is \$233.56

June had a \$2.68 charge on the energy balancing account, July there was an \$10 charge, and August has a \$34.14 charge.

Rocky Mountain Power is taking advantage of their customers. My bill has increased significantly, with a massive difference in the energy balancing account.

There has been a 25+ percent increase on my energy balancing account when it was sold to us as 1.6%. Something must be done about this.

Hi PSC,

I just received my July bill and was shocked at the great increase in my bill. Furthering my shock was talking to other Utah residents and realizing that prices had gone up for everyone. This has led me to the conclusion that Rocky Mountain Power is taking advantage of Utahans. My bill has a 25% increase from the Energy Balancing Account, it was sold to us as 1.6%. I advise the PSC to reconsider this recent approval from July 2024.

Thanks,
Kristen

Hi Public Service Commission of Utah,

I am a resident of South Salt Lake with my power provided by Rocky Mountain Power company. Rocky Mountain Power is taking advantage of Utahns and increasing the Energy Balancing Account charges. It was sold to us at 1.6% increase in 2021 and keeps increasing with no media coverage and minimal notice from the company. There have been numerous agenda items and increase approvals on your dockets in 2024 regarding Rocky Mountain Power, which have been negatively affecting Utahns.

Please take these increases into consideration at your committees and reconsider approving these increases.

Thank you,
Nicole Paneque

To Whom it may concern,

I'm writing because my power bill doubled in July.

Thanks,

Massive spike in utility bills from Rocky Mountain Power

Hello

I am writing because of recent massive increases in power bills that I and several others I know in the Salt Lake area have received over the last two months. I am including a screenshot to show how the bill has increased by 77% YoY despite the same number of kWh being consumed.

This is an egregious increase and I know of no purely market forces or increased production costs that would account for such an increase. What is being done to protect consumers?

Thank you,
Andrew Culp

Rocky Mountain is taking advantage of Utahans. My bill has a 25% increase from the Energy Balancing Account this past month, it was sold to us as 1.6% in 2021 and silently with no media coverage they have increased it again with the public service commission of Utah. This time according to the filing 19% to 52% of the total bill. Imagine buying a burger for \$2 and after you eat it, they ask for another \$1 due to the cost of the burger being more than what they charged.
