To: "psc@utah.gov" &lt;psc@utah.gov&gt;

This is a letter opposing the Rocky Mountain Power rate hike. We need to oppose the increase in rates and the very hurtful state energy policy. They are increasing rates 18% plus billing ratepayers more through the rapidly increasing Energy Balancing Account. The combined GRC-EBA increase is around 30%. They want citizens to cover their insurance liability. The state of Utah is supporting RMP and PacifiCorp using tax payers as a cushion. This is a business preying on citizens who require their services. Organizations like community councils can support all of us who live here by speaking up and refusing to let this be approved.

Thank you,
