Re: *Rocky Mountain Power's 2023 Annual Report of the Subscriber Solar Program;*
Docket No. 24-035-15

Dear Mr. Snow,

The Public Service Commission (PSC) reviewed Rocky Mountain Power's (RMP) 2023 Annual Report of the Subscriber Solar Program ("Program") for the January 1, 2023 through December 31, 2023 period ("Report"), filed on March 28, 2024 in compliance with the October 21, 2015 Order Approving Amended Settlement Agreement and August 16, 2017 correspondence in Docket No. 15-035-61 ("Reporting Requirements"). The PSC also reviewed the April 26, 2024 comments submitted by the Division of Public Utilities (DPU).

DPU recommends the PSC acknowledge the Report. DPU comments that the Program appears to be oversubscribed in 2023 and 2022. DPU plans to monitor the possible over-subscription going forward and alert the PSC if any action is warranted. According to DPU, there does not appear to be any significant cost shift or obligation paid by non-participating customers through the EBA as a result. DPU also noted several minor issues in the Report including a wrong value for the Total Expense Variation calculation, misapplication of the avoided cost rate from the current Schedule No. 37, and a lack of updates needed to reflect current tax laws. DPU indicates the impact of the above issues on the Report is not significant.

Based on the PSC's review of the Report and DPU's comments and recommendation, the PSC acknowledges that the Report complies with the Reporting

Docket No. 24-035-15
Acknowledgment Letter from the PSC

Requirements. The PSC directs RMP to address DPU's recommended corrections with the filing of its next annual Subscriber Solar Program Report.

Sincerely,

/s/ Gary L. Widerburg
PSC Secretary
