RE: **Docket No. 24-035-49 – In the Matter of the Application of Rocky Mountain Power for Approval of Power Purchase Agreement Between PacifiCorp and Tesoro Refining and Marketing Company**

Rocky Mountain Power (the “Company”) hereby submits for filing its application for approval of the Power Purchase Agreement between PacifiCorp and Tesoro Refining and Marketing Company dated September 27, 2024. Confidential information is provided subject to R746-1-602 and 603 of the Public Service Commission of Utah Rules.

The Company respectfully requests that all formal correspondence and requests for additional information regarding this filing be addressed to the following:

BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

In the Matter of the Application of)
Rocky Mountain Power for Approval of)
Power Purchase Agreement Between)
PacifiCorp and Tesoro Refining &)
Marketing Company LLC)

Docket No. 24-035-49

**APPLICATION OF ROCKY MOUNTAIN
POWER**

Pursuant to Utah Code Ann. § 54-12-2, PacifiCorp, doing business in Utah as Rocky Mountain Power (“PacifiCorp” or “Rocky Mountain Power”) hereby applies for an order approving the Power Purchase Agreement (“Agreement”) between PacifiCorp and Tesoro Refining & Marketing Company LLC (“Tesoro”) dated September 27, 2024. In support of its application, Rocky Mountain Power states as follows:

1. Rocky Mountain Power is a public utility in the state of Utah and is subject to the jurisdiction of the Public Service Commission of Utah (“Commission”) with regard to its rates and service. Rocky Mountain Power also provides retail electric service in the states of Idaho and Wyoming. As a “purchasing utility,” as that term is used in Utah Code Ann. § 54-12-2, PacifiCorp is obligated to purchase power from qualifying facilities pursuant to the Public Utility Regulatory Policies Act of 1978, Utah Code Ann. §54-12-1, *et seq.*, and the Commission’s orders. Under the

Agreement, Tesoro represents itself to be a qualifying facility, and agrees to provide PacifiCorp, upon request, with evidence to show its qualifying facility status.

2. Communications regarding this Application should be addressed to:

By e-mail (preferred): datarequest@pacificorp.com
jana.saba@pacificorp.com
max.backlund@pacificorp.com
katherine.smith@pacificorp.com

Telephone: (801) 220-2823
Facsimile: (801) 220-3299

3. In Docket No. 03-035-14, the Commission issued a series of Orders that established avoided capacity and energy cost payments for purchases from QF projects larger than one megawatt, such as Tesoro's, under contracts with PacifiCorp. The Commission re-affirmed this methodology in Docket No. 12-035-100.¹

4. The Agreement provides for the sale to PacifiCorp of energy to be generated by Tesoro up to 25.0 MW, from a gas-fired cogeneration facility owned by Tesoro and located in Salt Lake City, Utah (the "Facility"). The A copy of the Agreement is attached to this Application as Exhibit A. The Agreement is for a term of 12 months: January 1, 2025 to December 31, 2025.

¹ See *In the Matter of the Application of Rocky Mountain Power for Approval of Changes to Renewable Avoided Cost Methodology for Qualifying Facilities Projects Larger than Three Megawatts*, Order on Phase II Issues (August 16, 2013).

5. The purchase prices set forth in the Agreement were calculated using the methodology approved by the Commission orders in Docket No. 03-035-14. Pursuant to the Commission orders in Docket Nos. 16-035-38, 16-035-39, and 16-035-40, the Company's filing also provides confidential Generation and Regulation Initiative Decision Tool ("GRID") outputs and spreadsheets supporting the derivation of purchase power agreement prices with all spreadsheet formulae intact. Also provided is the confidential work paper supporting the avoided line loss adjustment calculations.

6. The Facility is located in Salt Lake City in an area served by Rocky Mountain Power. All interconnection requirements have been met and the Facility is fully integrated with the Rocky Mountain Power system.

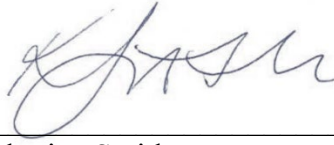

7. According to the terms of the 2020 Protocol, approved by the Commission on April 15, 2020, in Docket No. 19-035-42, and extended through December 31, 2025, the costs of the QF power purchase agreement would be allocated as a system resource, unless any portion of those costs exceed the cost PacifiCorp would have otherwise incurred acquiring comparable resources.

8. The existing QF Power Purchase Agreement and its Fourth Amendment, dated September 25, 2023 between PacifiCorp and Tesoro expires on December 31, 2024. Therefore, the parties desire that there be no time lapse between the expiration of the previous Agreement and the approval of the new Agreement for which approval is sought in this Application.

WHEREFORE, Rocky Mountain Power respectfully requests that the Commission issue an order approving the Agreement and find the terms and conditions of the Agreement to be just, reasonable and in the public interest.

DATED this 3rd day of October 2024,

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'K. Smith', written in a cursive style.

THIS NON-FIRM POWER PURCHASE AGREEMENT (“**Agreement**”), entered into this 30th day of September, 2024, is by and between Tesoro Refining & Marketing Company LLC (“**Seller**”) and PacifiCorp (individually, a “**Party**” and collectively, the “**Parties**”).

RECITALS

A. Seller owns, operates, and maintains a natural gas-fired cogeneration facility for the generation of electric power located in Salt Lake City, Salt Lake County, Utah, with a Nameplate Capacity Rating of 25.0 megawatts (“**MW**”) and as further set forth on **Exhibit A** (“**Facility**”); and

B. Seller intends to operate the Facility as a QF (as such term is defined in Section 3.2.6 below), commencing delivery under this Agreement on the later of 00:00:01 MPT on January 1, 2025 (“**Scheduled Initial Delivery Date**”) or 00:00:01 MPT on the Initial Delivery Date (as defined below); and

C. Seller estimates that the average annual Delivered Energy (as defined below) to be delivered by the Facility to PacifiCorp is 5,000 megawatt-hours (MWh) subject to any limitations created pursuant to any maintenance schedules in **Exhibit D** hereto; and

D. Seller desires to sell and PacifiCorp desires to purchase the Delivered Energy from the Facility in accordance with the terms and conditions of this Agreement; and

E. PacifiCorp shall sell and Seller shall purchase backup energy and capacity in accordance with the terms and conditions of a separate agreement between the Parties modeled after Utah Schedule 31.

AGREEMENT

NOW, THEREFORE, the Parties mutually agree as follows:

SECTION 1: DEFINITIONS

When used in this Agreement, the following terms have the following meanings:

“**Affiliate**” means, with respect to any entity, each entity that directly or indirectly controls, is controlled by, or is under common control with, such designated entity, with “control” meaning the possession, directly or indirectly, of the power to direct management and policies, whether through the ownership of voting securities or by contract or otherwise. Notwithstanding the foregoing, with respect to PacifiCorp, Affiliate shall only include Berkshire Hathaway Energy Company and its direct, wholly owned subsidiaries.

“**Agreement**” is defined in the introductory paragraph above.

“**Billing Period**” means the time period between PacifiCorp’s reading of its power purchase billing meters at the Facility in the normal course of PacifiCorp’s business. Such periods typically range between twenty-seven (27) and thirty-four (34) days and may or may not coincide with calendar months.

“Commission” means the Public Service Commission of Utah.

“Conditional DNR Notice” is defined in Section 4.3.

“Delivered Energy” is defined in Section 4.2.

“Effective Date” is defined in Section 2.1.

“Facility” has the meaning set forth in Recital A.

“Generation Interconnection Agreement” means the generation interconnection agreements identified in **Exhibit C** entered into separately between Seller and PacifiCorp, acting in its transmission function capacity, providing for the construction, operation, and maintenance of the interconnection facilities.

“Initial Delivery Date” has the meaning set forth in Section 4.1.

“Master Electric Service Agreement” means the PARTIAL REQUIREMENT MASTER ELECTRIC SERVICE AGREEMENT effective as of the first day of September, 2014, by and between PacifiCorp and Seller.

“MPT” means Mountain Prevailing Time

“Nameplate Capacity Rating” means the maximum capacity of the Facility, expressed in MW, when operated consistent with the manufacturer’s recommended power factor and operating parameters, as set forth in **Exhibit A**.

“Net Dependable Capacity” means the maximum capacity the Facility can sustain over a specified period modified for seasonal limitations and reduced by the capacity required for station service or auxiliaries. For purposes of this Agreement, Net Dependable Capacity shall be the Nameplate Capacity Rating less the capacity required for station service or auxiliaries.

“Net Output” means all energy produced by the Facility, less station use, and less transformation and transmission losses and other adjustments, if any.

“Network Resource” has the meaning set forth in the Tariff.

“On-Peak” has the definition of On-Peak that is stated in PacifiCorp’s Utah Electric Service Schedule No. 9, as it may be updated from time to time. As of the date of execution of this Agreement Utah Electric Service Schedule No. 9 defines On-Peak as October through May inclusive 6:00 a.m. to 9:00 am and 6:00 p.m. to 10:00 p.m. MPT, Monday thru Friday, except holidays. June through September inclusive 3:00 p.m. to 10:00 p.m. MPT, Monday thru Friday, except holidays. Holidays include only New Year’s Day, President’s Day, Memorial Day, Independence Day, Pioneer Day, Labor Day, Thanksgiving Day, and Christmas Day. When a holiday falls on a Saturday or Sunday, the Friday before the holiday (if the holiday falls on a Saturday) or the Monday following the holiday (if the holiday falls on a Sunday) will be considered a holiday and consequently Off-Peak.

“Off-Peak” means those hours that are not On-Peak hours.

“PacifiCorp Transmission” means PacifiCorp, an Oregon corporation, acting in its interconnection or transmission function capacity.

“Point of Delivery” means the same point of delivery as that used in the Master Electric Service Agreement and as provided in **Exhibit B**.

“PURPA” means the Public Utility Regulatory Policies Act of 1978.

“Prime Rate” means the then effective US Prime Rate as published in the Eastern print edition of the Wall Street Journal.

“Prudent Electrical Practices” means any of the practices, methods and acts engaged in or approved by a significant portion of the electrical utility industry or any of the practices, methods or acts, which, in the exercise of reasonable judgment in the light of the facts known at the time a decision is made, could have been expected to accomplish the desired result at reasonable costs consistent with reliability, safety and expedition. Prudent Electrical Practices is not intended to be limited to the optimum practice, method or act to the exclusion of all others, but rather to be a spectrum of possible practices, methods or acts.

“Required Facility Documents” means the permits and other authorizations, rights and agreements now or hereafter necessary for construction, operation, and maintenance of the Facility, including but not limited to those documents that are listed in **Exhibit C**.

“Scheduled Initial Delivery Date” means the earliest date Seller may deliver Delivered Energy under this Agreement, as set forth in Recital B.

“Scheduled Maintenance Periods” means those times, as reflected in **Exhibit D**, during which the Facility is anticipated to be shut down for routine maintenance with the advance notice to PacifiCorp as provided in Section 6.2.

“Tariff” means PacifiCorp’s Open Access Transmission Tariff, as revised from time to time.

“Transmission Provider” means PacifiCorp Transmission, including the Grid Operations business unit.

“Transmission Provider’s System” means the electric transmission substation and transmission or distribution facilities owned, operated or maintained by Transmission Provider, which shall include the circuit reinforcements, extensions, and associated terminal facility reinforcements or additions owned or operated by the Transmission Provider at the Point of Delivery.

SECTION 2: TERM

2.1 This Agreement shall become effective upon the occurrence of both: (1) execution by both Parties; and (2) after approval by the Commission whereby the Commission determines that the prices to be paid for energy and capacity sold to PacifiCorp are just and reasonable and in the public interest (the date on which both such conditions are met, the **“Effective Date”**); provided that, as provided herein, Seller shall not deliver energy under this Agreement before the Initial Delivery Date. In the event that the Commission order approving this Agreement contains any

condition that is materially adverse to either Party, the Party adversely impacted by the condition may terminate this Agreement by providing the other Party notice within ninety (90) days of the entry of the Commission's order, or, if the Scheduled Initial Delivery Date occurs within said period, by the Scheduled Initial Delivery Date.

2.2 Unless terminated sooner as provided herein, this Agreement shall terminate at 24:00:00 MPT on December 31, 2025.

2.3 Time is of the essence in the performance of this Agreement, and delivery of Net Output by the Scheduled Initial Delivery Date is critically important. Therefore, before the Scheduled Initial Delivery Date, Seller shall provide PacifiCorp with (i) a copy of the Required Facility Documents listed on **Exhibit C**, (ii) an executed authorization to release generation data, in PacifiCorp's standard form; and (iii) such further assurances, as may be reasonably requested by PacifiCorp, that the representations, warranties and covenants set forth in Section 3.2 remain true and correct.

SECTION 3: REPRESENTATIONS AND WARRANTIES

3.1 PacifiCorp represents, covenants, and warrants to Seller that:

3.1.1 PacifiCorp is duly organized and validly existing under the laws of the State of Oregon.

3.1.2 PacifiCorp has the requisite corporate power and authority to enter into this Agreement and to perform according to the terms of this Agreement.

3.1.3 PacifiCorp has taken all corporate actions required to be taken by it to authorize the execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby.

3.1.4 Subject to Commission approval, the execution and delivery of this Agreement does not contravene any provision of, or constitute a default under, any indenture, mortgage, or other material agreement binding on PacifiCorp or any valid order of any court, or any regulatory agency or other body having authority to which PacifiCorp is subject.

3.1.5 Subject to Commission approval, this Agreement is a valid and legally binding obligation of PacifiCorp, enforceable against PacifiCorp in accordance with its terms (except as the enforceability of this Agreement may be limited by bankruptcy, insolvency, bank moratorium or similar laws affecting creditors' rights generally and laws restricting the availability of equitable remedies and except as the enforceability of this Agreement may be subject to general principles of equity, whether or not such enforceability is considered in a proceeding at equity or in law).

3.2 Seller represents, covenants, and warrants to PacifiCorp that:

3.2.1 Seller is a Delaware limited liability company having a place of business within the State of Utah, in and about the town of Salt Lake City, Utah and located within the County of Salt Lake and is authorized to conduct its business in Utah.

3.2.2 Seller has the requisite power and authority to enter into this Agreement and to perform according to the terms hereof, including all required Generation Interconnection Agreements, and regulatory authority to make wholesale sales from the Facility.

3.2.3 Seller's officers and management, as appropriate, have taken all actions required to authorize the execution, delivery and performance of this Agreement and the consummation of the transactions contemplated hereby.

3.2.4 The execution and delivery of this Agreement does not contravene any provision of, or constitute a default under, any indenture, mortgage, or other material agreement binding on Seller or any valid order of any court, or any regulatory agency or other body having authority to which Seller is subject.

3.2.5 Subject to Commission approval, this Agreement is a valid and legally binding obligation of Seller, enforceable against Seller in accordance with its terms (except as the enforceability of this Agreement may be limited by bankruptcy, insolvency, bank moratorium or similar laws affecting creditors' rights generally and laws restricting the availability of equitable remedies and except as the enforceability of this Agreement may be subject to general principles of equity, whether or not such enforceability is considered in a proceeding at equity or in law).

3.2.6 The Facility is and shall for the term of this Agreement continue to be a "Qualifying Facility" as such term is defined by the federal Public Utility Regulatory Policies Act ("QF") and the implementing regulations and orders of the Federal Energy Regulatory Commission ("FERC") in effect as of the Effective Date. At any time during the term of this Agreement, PacifiCorp may, at Seller's sole expense, require Seller to provide PacifiCorp with a written legal opinion stating that the Facility is a QF and providing sufficient proof (including copies of all documents and data as PacifiCorp may request) demonstrating that Seller has maintained and will continue to maintain the Facility as a QF.

3.2.7 As of the Effective Date and the Initial Delivery Date, the Nameplate Capacity Rating of the Facility is fully operational and reliable and the Facility is fully interconnected, fully integrated, and synchronized with the Transmission Provider's System

3.2.8 Seller holds as of the Effective Date, and will maintain for the term, all Required Facility Documents, including the Required Facility Documents identified on **Exhibit C**. Seller shall notify PacifiCorp of any material consent or approval that Seller determines is required for the ownership or operation of the Facility that Seller has failed to obtain or has allowed to expire. PacifiCorp may request in writing copies of any Required Facility Document and Seller shall provide such document within fifteen (15) days of PacifiCorp's request.

SECTION 4: DELIVERY OF POWER

4.1 Commencing on the last to occur of (i) the Scheduled Initial Delivery Date; (ii) the date on which PacifiCorp notifies Seller that the Transmission Provider has designated the Facility as a Network Resource; and (iii) the date on which Seller satisfies its obligations under Section 2.3 (such later date, the "**Initial Delivery Date**"), and continuing through the term of this Agreement,

Seller shall sell and make available to PacifiCorp, and PacifiCorp shall purchase, the Delivered Energy from the Facility at the Point of Delivery as more particularly described in Section 4.2 hereto.

4.2 Commencing on the Initial Delivery Date, Seller shall have the option, but not the obligation, to provide and deliver all or a portion of the Net Output to PacifiCorp at the Point of Delivery. The amount of Net Output that Seller actually delivers to PacifiCorp as measured at the Point of Delivery shall be referred to herein as the “**Delivered Energy**”. Seller shall not deliver energy at a rate exceeding the Nameplate Capacity Rating on an hour average basis. PacifiCorp shall not pay any amount for energy delivered in any hour in excess of the Nameplate Capacity Rating. PacifiCorp shall take all Delivered Energy at the Point of Delivery. Seller shall have no minimum delivery obligation.

4.3 Within five (5) Business Days following the Effective Date, PacifiCorp will submit an application to the Transmission Provider requesting designation of the Facility as a Network Resource, thereby authorizing transmission service under PacifiCorp’s Network Integration Transmission Service Agreement with the Transmission Provider. If PacifiCorp is notified in writing by the Transmission Provider that designation of the Facility as a Network Resource requires the construction of transmission system network upgrades or otherwise requires potential redispatch of other Network Resources of PacifiCorp (the “**Conditional DNR Notice**”), the Parties will promptly meet to determine how such conditions to the Facility’s Network Resource designation may impact the pricing or other terms and conditions of this Agreement. If, within thirty (30) days following the date of PacifiCorp’s receipt of the Conditional DNR Notice, the Parties are unable to reach agreement on any necessary adjustments to ensure the pricing under this Agreement reflects an “avoided cost” price as determined by the Commission and in accordance with PURPA, PacifiCorp will submit the matter to the Commission for a determination on what adjustments, if any, are appropriate as a result of the Conditional DNR Notice. PacifiCorp will submit such filing with the Commission within sixty (60) days following the date of PacifiCorp’s receipt of the Conditional DNR Notice. In the event of such a filing to the Commission under this Section, the Parties’ obligations under this Agreement will be suspended until such time that the Commission issues a final decision. In the event of a Conditional DNR Notice, Seller will have the right to terminate this Agreement upon written notice to PacifiCorp and such termination by Seller will not be an Event of Default, and no damages or other liabilities under this Agreement will be owed by one Party to the other Party; provided, however, that Seller’s right to terminate this Agreement under this Section 4.3 will cease following: (a) any amendment of this Agreement associated with addressing matters covered under this Section 4.3, or (b) PacifiCorp incurring costs at Seller’s request in furtherance of addressing matters covered under this Section 4.3.

4.4 Seller shall not sell Net Output to any entity other than PacifiCorp prior to the termination date specified in Section 2.2. Seller may elect to self-supply its own power usage at the same location as the Facility with any portion of Net Output instead of selling such Net Output to PacifiCorp as Delivered Energy under this Agreement. For purposes of this Agreement, Seller shall sell to PacifiCorp only those quantities of Net Output that exceed Seller’s own power usage at the same location.

4.5 Seller shall not increase the Nameplate Capacity Rating above that specified in **Exhibit A** or increase the ability of the Facility to deliver Net Output at a rate exceeding the

Nameplate Capacity Rating through any means, including the replacement, modification, or addition of existing equipment, without the prior written consent of PacifiCorp. To the extent not otherwise provided in the Generation Interconnection Agreement, all costs associated with the modifications to PacifiCorp's interconnection facilities or electric system occasioned by or related to the interconnection of the Facility with PacifiCorp's system, or any increase in generating capability of the Facility, or any increase of the Net Dependable Capacity from the Facility, shall be borne by Seller.

SECTION 5: PURCHASE PRICE

5.1 PacifiCorp shall pay to Seller the "Total Payment per Billing Period" for the Delivered Energy, calculated as follows:

"Total Payment per Billing Period" (\$) shall be equal to the sum of the "Total On-Peak Payment" (\$) and "Total Off-Peak Payment" (\$).

Where:

"Total On-Peak Payment" (\$) is equal to the "On-Peak Energy Price" (\$/MWh) multiplied by the volume of Delivered Energy during On-Peak periods in the applicable Billing Period (MWh) multiplied by the "Line Loss Factor";

and

"Total Off-Peak Payment" (\$) is equal to the "Off-Peak Energy Price" (\$/MWh) multiplied by the volume of Delivered Energy during Off-Peak periods in the applicable Billing Period (MWh) multiplied by the "Line Loss Factor".

As used above, "On-Peak Energy Price" is the price set forth in **Exhibit E** for the applicable month in which Delivered Energy for On-Peak hours was delivered.

As used above, "Off-Peak Energy Price" is the price set forth in **Exhibit E** for the applicable month in which Delivered Energy for Off-Peak hours was delivered.

As used above, the "Line Loss Factor" shall be 1.0126 based on a rate of 4.30% for real power losses for voltage of 46 kV or greater as set forth in Schedule 10 of PacifiCorp's Open Access Transmission Tariff (OATT).

5.2 The amount of Delivered Energy purchased by PacifiCorp in any Billing Period will be calculated by determining the sum of the hourly kW out meter reads for meter M78505. Such Delivered Energy is the Net Output from the Facility less the internal retail energy usage at Seller's Facility.

SECTION 6: OPERATION AND CONTROL

6.1 Seller shall operate and maintain the Facility in a safe manner in accordance with the Generation Interconnection Agreement, Prudent Electrical Practices, the Required Facility Documents, and in accordance with the requirements of all applicable federal, state and local laws and the National Electric Safety Code as such laws and code may be amended from time to time. PacifiCorp shall have no obligation to purchase Net Output from the Facility to the extent the

interconnection between the Facility and PacifiCorp's electric system is disconnected, suspended or interrupted, in whole or in part, pursuant to the Generation Interconnection Agreement, or to the extent generation curtailment is required as a result of Seller's non-compliance with the Generation Interconnection Agreement or otherwise as a result of a non-discriminatory curtailment in response to direction from a market operator or the Transmission Provider made pursuant to federal laws or regulations, tariffs, and NERC standards and directives in a system emergency.

6.2 After the Initial Delivery Date, Seller may cease operation of the entire Facility or individual units, if applicable, for Scheduled Maintenance Periods not to exceed a total of sixty (60) days at such times as are provided in the monthly maintenance schedule set forth in **Exhibit D**.

6.3 Seller shall itself operate the Facility or cause the Facility to be operated by an entity that has at least two years of experience in operation of similar facilities of comparable size to the Facility. Seller shall provide PacifiCorp thirty (30) days prior written notice of any change in operator of the Facility.

6.4 If the Facility ceases operation for unscheduled maintenance, then as soon as is commercially reasonable, Seller shall notify PacifiCorp of the necessity of such unscheduled maintenance, the time when such shutdown has occurred or will occur, and the anticipated duration of such shutdown. Seller shall take all reasonable measures and exercise its best efforts to avoid unscheduled maintenance, to limit the duration of such unscheduled maintenance, and to perform unscheduled maintenance during Off-Peak hours.

6.5 For each month commencing on the Initial Delivery Date, Seller shall provide PacifiCorp estimates of Delivered Energy to be delivered. Seller shall provide such estimates, and any changes thereto, to PacifiCorp on the first business day of the month preceding the month of the estimated delivery, or as soon thereafter as practicable. Seller shall provide such estimates and changes thereto to PacifiCorp's scheduling personnel per Section 21. Such estimates shall be based on the best information available. The Parties agree that the estimates are only estimates and, therefore, are not binding on Seller.

6.6 Seller does not guarantee availability of the Facility; however, Seller agrees to notify PacifiCorp of unplanned outages and will use reasonable commercial efforts to keep the Facility operating for providing Delivered Energy to PacifiCorp.

SECTION 7: FUEL/MOTIVE FORCE

7.1 PacifiCorp shall have no obligation to procure or pay for any fuel that might be used in the operation of the Facility.

7.2 Seller shall procure and pay for gas in the natural gas marketplace and/or use gas generated by Seller and have it delivered to the Facility by a pipeline serving the Facility or, in the case of gas generated by Seller, by Seller's pipeline.

SECTION 8: METERING

8.1 PacifiCorp shall design, furnish, install, own, inspect, test, maintain and replace all metering equipment required pursuant to the Generation Interconnection Agreement.

8.2 Metering shall be performed at the location and in the manner specified in the Generation Interconnection Agreement, and Section 5.2 of this Agreement.

8.3 The metering equipment will be inspected, tested, repaired and replaced as provided in the Generation Interconnection Agreement; provided that PacifiCorp shall have the right to periodically inspect, test, repair and replace the metering equipment that are provided for in the Generation Interconnection Agreement, without PacifiCorp assuming any obligations thereunder. If any of the inspections or tests disclose an error exceeding 0.5 percent, either fast or slow, proper correction, based upon the inaccuracy found, shall be made of previous readings for the actual period during which the metering equipment rendered inaccurate measurements if that period can be ascertained. If the actual period cannot be ascertained, the proper correction shall be made to the measurements taken during the time the metering equipment was in service since last tested, but not exceeding three months, in the amount the metering equipment shall have been shown to be in error by such test. Any correction in billings or payments that accurately reflects a correction in the meter records shall be made in the next monthly billing or payment rendered and otherwise settled and netted in accordance with Section 9 of this Agreement. Such correction, when made, shall constitute full adjustment of any claim between Seller and PacifiCorp arising out of such inaccuracy of metering equipment. Nothing in this Agreement shall give rise to PacifiCorp, acting in its merchant function capacity hereunder, having any obligations to Seller.

8.4 To the extent not otherwise provided in the Generation Interconnection Agreement, all of PacifiCorp's reasonable costs relating to all metering equipment installed to accommodate Seller's Facility shall be borne by Seller.

SECTION 9: BILLINGS, COMPUTATIONS AND PAYMENTS

9.1 On or before the thirtieth (30th) day following the end of each Billing Period, PacifiCorp shall send to Seller payment for Seller's deliveries of Delivered Energy to PacifiCorp, together with computations supporting such payment. PacifiCorp shall offset any amounts then due to it under the Master Electric Service Agreement and may offset any such payment to reflect amounts owing from Seller to PacifiCorp pursuant to this Agreement, the Generation Interconnection Agreement, or any other agreement between the Parties or otherwise.

9.2 In the event that a Party disputes in good faith a portion of a bill or adjustment arising hereunder the disputing Party shall notify the other Party and pay the portion not in dispute when due. Seller and PacifiCorp shall seek to make a determination on any disputed amount within sixty (60) days after issuance of the Party's notice of dispute. Nothing herein shall be construed to preclude a Party from resorting to any remedy available at law or in equity.

9.3 Any amounts owing after the due date thereof, including amounts disputed under Section 9.2 that are determined to be due, shall bear interest at the Prime Rate plus two percent (2%) from the date due until paid; provided, however, that the interest rate shall at no time exceed the maximum rate allowed by applicable law.

SECTION 10: DEFAULT AND REMEDIES

10.1 The following events shall constitute defaults under this Agreement:

10.1.1 Failure of a Party to perform any material obligation or abide by a negative

covenant imposed upon that Party by this Agreement (including failure to make a payment when due) or breach by a Party of a representation or warranty set forth in this Agreement, if such failure or breach is not cured within thirty (30) days following written notice;

10.1.2 Filing of a petition in bankruptcy by or against a Party if such petition is not withdrawn or dismissed within sixty (60) days after it is filed;

10.1.3 Seller's failure to cure any default under the Generation Interconnection Agreement within the time allowed for a cure under such agreement; and

10.1.4 Seller's failure to achieve Initial Delivery by the Scheduled Initial Delivery Date.

10.1.5 Seller sells Net Output from the Facility to a party other than PacifiCorp in breach of Section 4.5, if Seller does not immediately and permanently cease such sale and compensate PacifiCorp for the damages arising from the breach within ten (10) days after PacifiCorp gives Seller a notice of default and statement of the resulting damages.

10.1.6 PacifiCorp receives notice of foreclosure of the Facility or any part thereof by a lender, mechanic or materialman, or any other holder, of an unpaid lien or other charge or encumbrance, if the same has not been stayed, paid, or bonded around within ten days of the date of the notice received by PacifiCorp.

10.1.7 Seller fails to maintain any Required Facility Documents necessary to own or operate the Facility and such failure continues for 30 days after Seller's receipt of written notice thereof from PacifiCorp; provided, however, that, upon written notice from Seller, the thirty (30) day period shall be extended by an additional sixty (60) days if: (i) the failure cannot reasonably be cured within the thirty (30) day period despite diligent efforts, (ii) the default is capable of being cured within the additional sixty (60) day period, and (iii) Seller commences the cure within the original thirty (30) day period and is at all times thereafter diligently and continuously proceeding to cure the failure.

10.1.8 Seller's abandonment of operation of the Facility and such failure continues for thirty (30) days after Seller's receipt of written notice thereof from PacifiCorp, except to the extent caused by an event of Force Majeure or a default by PacifiCorp.

10.1.9 Seller fails to maintain insurance as required by the Agreement, and such failure continues for fifteen (15) days after Seller's receipt of written notice thereof from PacifiCorp.

10.2 In the event of any default hereunder that is not cured in the manner provided for in the Agreement, the non-defaulting Party may terminate this Agreement at its sole discretion by delivering written notice to the other Party and may pursue any and all legal or equitable remedies provided by law or pursuant to this Agreement. The rights provided in this Section 10 are cumulative such that the exercise of one or more rights shall not constitute a waiver of any other rights.

10.3 If this Agreement is terminated because of Seller's default, until the expiration date set forth in Section 2.2 has occurred, neither Seller nor Seller's Affiliate or successor, if applicable, may require PacifiCorp to purchase energy or capacity from the Facility at any higher price than as

set forth herein, or with any other terms or conditions that are more favorable to the Seller than those set forth herein. This Section 10.3 shall survive the termination of this Agreement.

10.4 Upon an event of default or termination event under this Agreement, in addition to and not in limitation of any other right or remedy under contract or applicable law (including any right to set-off, counterclaim, or otherwise withhold payment), the non-defaulting Party may at its option set-off, against any amounts owed to the defaulting Party, any amounts owed by the defaulting Party under any contract or agreement between the Parties. The obligations of the Parties shall be deemed satisfied and discharged to the extent of any such set-off. The non-defaulting Party shall give the defaulting Party written notice of any set-off, but failure to give such notice shall not affect the validity of the set-off.

SECTION 11: INDEMNIFICATION, LIABILITY AND INSURANCE

11.1 Seller and PacifiCorp shall release, indemnify, protect and hold harmless each other as follows:

11.1.1 Seller shall release, indemnify, protect, and hold harmless PacifiCorp, its directors, officers, agents, representatives, successors, and assigns from and against any and all loss, claims, actions or suits, including costs and attorney's fees, resulting from, or arising out of or in any way connected with, the energy delivered by Seller hereunder to and at the Point of Delivery, including without limitation any loss, claim, action or suit, (i) for or on account of injury, bodily or otherwise, to, or death of, persons, or for damage to, or destruction or economic loss of property belonging to PacifiCorp, Seller or others, or (ii) arising out of, or in any way connected with any action by any governmental authority due to noncompliance by Seller with any requirements of law or the provisions of this Agreement; excepting, in either case, only such loss, claim, action or suit to the extent caused by the negligence or noncompliance, as applicable, of PacifiCorp, its directors, officers, employees, agents or representatives.

11.1.2 PacifiCorp shall release, indemnify, protect, and hold harmless Seller, its directors, officers, agents, representatives, successors, and assigns from and against any and all loss, claims, actions or suits, including costs and attorney's fees, resulting from, or arising out of or in any way connected with the energy delivered by Seller hereunder after the Point of Delivery, including without limitation any loss, claim, action or suit, (i) for or on account of injury, bodily or otherwise, to, or death of, persons, or for damage to, or destruction or economic loss of property belonging to PacifiCorp, Seller or others, or (ii) arising out of, or in any way connected with any action by any governmental authority due to noncompliance by PacifiCorp with any requirements of law or the provisions of this Agreement; excepting, in either case, only such loss, claim, action or suit to the extent caused by the negligence or noncompliance, as applicable, of Seller, its directors, officers, employees, agents or representatives.

11.2 Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to any person not a Party to this Agreement. No undertaking by one Party to the other under any provision of this Agreement shall constitute the dedication of that Party's system or any portion thereof to the other Party or to the public, nor affect the status of PacifiCorp as an independent public utility corporation or Seller as an independent individual or

entity.

11.3 Neither Party shall be liable to the other Party for special, punitive, indirect or consequential damages, whether arising from contract, tort (including negligence), strict liability, or otherwise.

11.4 Without limiting any liabilities or any other obligations of Seller, Seller shall comply with all applicable worker's compensation and employer's liability acts and shall, at PacifiCorp's request, furnish a certificate of insurance, in a form reasonably satisfactory to PacifiCorp.

11.5 Without limiting any liabilities or any other obligations of Seller, Seller shall secure and continuously carry with insurers acceptable PacifiCorp (such acceptance not to be unreasonably withheld), the following insurance coverage:

11.5.1 Workers' Compensation (Statutory limit) and Employers' Liability insurance with a minimum limit of \$ 1,000,000 applicable to each accident/disease.

11.5.2 Commercial General Liability insurance, to include contractual liability, premises and operations, and broad form property damage, with a minimum single limit of \$1,000,000 each occurrence/\$2,000,000 general aggregate to protect against and from loss by reason of injury to persons or damage to property based upon and arising out of the activity under this Agreement.

11.5.3 Umbrella/Excess Liability insurance with a single limit of at least \$10,000,000 each occurrence/aggregate, where applicable, to be in excess of the coverages and limits required in Employers' Liability insurance and Commercial General Liability insurance, above. Seller shall notify PacifiCorp, and Seller may be required to purchase additional limits of coverage, if at any time this minimum umbrella limit is not available during the term of this Agreement.

11.5.4 Commercial Automobile Liability, to include coverage for all owned and non-owned, hired or otherwise utilized vehicles with minimum combined single limit of \$1,000,000 per occurrence for bodily injury and property damage liability.

11.6 The Commercial General Liability and the Umbrella/Excess Liability policies required herein shall include (a) provisions or endorsements naming PacifiCorp, including its directors, officers, agents, representatives, invitees, successors, and assigns, as an additional insured, and (b) cross liability coverage so that the insurance applies separately to each insured against whom claim is made or suit is brought, even in instances where one insured claims against or sues another insured.

11.7 All liability policies required by this Agreement shall include provisions that such insurance is primary insurance with respect to the interests of PacifiCorp and that any other insurance maintained by the PacifiCorp is excess and not contributory insurance with the insurance required hereunder, and provisions that such policies shall not be canceled or their limits of liability reduced without (a) ten (10) days prior written notice to PacifiCorp if canceled for nonpayment of premium, or (b) thirty (30) days prior written notice to PacifiCorp if canceled for any other reason. A certificate in a form satisfactory to PacifiCorp certifying to the issuance of such insurance shall be furnished to PacifiCorp within ten (10) days following the Effective Date of this Agreement

(Certificates sent to PacifiCorp shall be sent to the “All Notices” address, in Section 20.1, and shall state “Attn: Risk Management”). Commercial General Liability coverage written on a “claims-made” basis, if any, shall be specifically identified on the certificate. Insurance coverage provided on a “claims-made” basis shall be maintained by Seller for a minimum period of five (5) years after the completion of this Agreement.

11.8 Seller may, at its option, self-insure for any or all of the coverage described above. For all such self-insurance maintained by Seller, Seller agrees to provide PacifiCorp all the benefits that would otherwise be available and provided under an insurance policy in accordance with the requirements set forth above in this Section 11, including but not limited to defense of claims.

SECTION 12: FORCE MAJEURE

12.1 As used in this Agreement, “Force Majeure” or “an event of Force Majeure” means any cause beyond the reasonable control of the Seller or of PacifiCorp which, despite the exercise of due diligence, such Party is unable to prevent or overcome. By way of example, Force Majeure may include but is not limited to flood, storms, wars, hostilities, civil strife, strikes, and other labor disturbances, earthquakes, fires, lightning, epidemics, sabotage, restraint by court order or other delay or failure in the performance as a result of any action or inaction on behalf of a public authority which is in each case (a) beyond the reasonable control of such Party, (b) by the exercise of reasonable foresight such Party could not reasonably have been expected to avoid and (c) by the exercise of due diligence, such Party shall be unable to prevent or overcome. Force Majeure, however, specifically excludes the cost or availability of fuel or motive force to operate the Facility, mechanical failures not caused by an independent underlying event of Force Majeure or changes in market conditions that affect the price of energy or transmission. If either Party is rendered wholly or in part unable to perform its obligation under this Agreement because of an event of Force Majeure, both Parties shall be excused from whatever performance is affected by the event of Force Majeure, provided that:

12.1.1 the non-performing Party shall, within two (2) weeks after the occurrence of the Force Majeure, give the other Party written notice describing the particulars of the occurrence; and

12.1.2 the suspension of performance shall be of no greater scope and of no longer duration than is required by the Force Majeure; and

12.1.3 the non-performing Party uses its reasonable commercial efforts to remedy its inability to perform.

12.2 No obligations of either Party which arose before the Force Majeure causing the suspension of performance shall be excused as a result of the Force Majeure.

12.3 Neither Party shall be required to settle any strike, walkout, lockout or other labor dispute on terms which, in the sole judgment of the Party involved in the dispute, is contrary to the Party’s best interests.

12.4 PacifiCorp may terminate the Agreement if Seller fails to remedy Seller’s inability to perform, due to a Force Majeure event, within six (6) months after the occurrence of the event. Seller may terminate the Agreement if it is unable to perform hereunder due to a Force Majeure

event for a continuous period of eighteen (18) months and the occurrence and duration of the Force Majeure event is not disputed in good faith by PacifiCorp. Upon the exercise by Seller of such termination right, the terms of Section 10.3 shall apply as if such termination occurred as a result of Seller default.

SECTION 13: REGULATORY TERMINATION

PacifiCorp may terminate this Agreement if Seller (a) suspends operations at the Facility for more than thirty (30) days as the result of a regulatory or legal action by either the State of Utah or the United States Environmental Protection Agency which has become final without further appeal or (b) loses its QF certification.

SECTION 14: SEVERAL OBLIGATIONS

Nothing contained in this Agreement shall ever be construed to create an association, trust, partnership or joint venture or to impose a trust or partnership duty, obligation or liability between the Parties.

SECTION 15: CHOICE OF LAW

This Agreement shall be interpreted and enforced in accordance with the laws of the state of Utah, excluding any choice of law rules which may direct the application of the laws of another jurisdiction.

SECTION 16: PARTIAL INVALIDITY

It is not the intention of the Parties to violate any laws governing the subject matter of this Agreement. If any of the terms of the Agreement are finally held or determined to be invalid, illegal or void as being contrary to any applicable law or public policy, all other terms of the Agreement shall remain in effect. If any terms are finally held or determined to be invalid, illegal or void, the Parties shall enter into negotiations concerning the terms affected by such decision for the purpose of achieving conformity with requirements of any applicable law and the intent of the Parties to this Agreement.

SECTION 17: WAIVER

Any waiver at any time by either Party of its rights with respect to a default under this Agreement or with respect to any other matters arising in connection with this Agreement must be in writing, and such waiver shall not be deemed a waiver with respect to any subsequent default or other matter.

SECTION 18: GOVERNMENTAL JURISDICTION AND AUTHORIZATIONS

This Agreement is subject to the jurisdiction of those governmental agencies having control over either Party or this Agreement. PacifiCorp's compliance with the terms of this Agreement is conditioned on Seller's submission to PacifiCorp prior to the Initial Delivery Date and maintaining thereafter copies of all local, state and federal licenses, permits and other approvals as then may be required by law for the construction, operation and maintenance of the Facility.

SECTION 19: SUCCESSORS AND ASSIGNS

This Agreement and all of the terms hereof shall be binding upon and inure to the benefit of the respective successors and assigns of the Parties. No assignment hereof by either Party shall become effective without the written consent of the other Party being first obtained and such consent shall not be unreasonably withheld, conditioned, or delayed. Notwithstanding the foregoing, either Party may assign this Agreement without the other Party's consent to a lender as part of a financing transaction or as part of (a) a sale of all or substantially all of the assigning Party's assets, or (b) a merger, consolidation or other reorganization of the assigning Party.

SECTION 20: ENTIRE AGREEMENT

This Agreement supersedes all prior agreements, proposals, representations, negotiations, discussions or letters, whether oral or in writing, regarding PacifiCorp's purchase of Delivered Energy from the Facility commencing on the Initial Delivery date. No modification of this Agreement shall be effective unless it is in writing and signed by both Parties.

SECTION 21: NOTICES

21.1 All notices except as otherwise provided in this Agreement shall be in writing, shall be directed as follows and shall be considered delivered if delivered in person or when deposited in the U.S. Mail, postage prepaid by certified or registered mail and return receipt requested.

21.2 The Parties may change the person to whom such notices are addressed, or their addresses, by providing written notices thereof in accordance with this Section 21.

SECTION 22: INTERPRETATION WITH FERC ORDERS

Each Party conducts and shall conduct its operations in a manner intended to comply with FERC Order No. 2004, Standards of Conduct for Transmission Providers, requiring the separation of its transmission and merchant functions. Moreover, the Parties acknowledge that Transmission Provider's function offers interconnection and transmission service on its system in a manner intended to comply with FERC policies and requirements relating to the provision of open-access transmission service. The Parties recognize that Seller will enter into the Generation Interconnection Agreement with the Transmission Provider. Accordingly, (i) the Parties acknowledge and agree that the Generation Interconnection Agreement shall be a separate and free standing contract and that the terms hereof are not binding upon the Transmission Provider; (ii) notwithstanding any other provision in this Agreement, nothing in the Generation Interconnection Agreement, nor any other agreement between Seller on the one hand and Transmission Provider on the other hand, nor any alleged event of default thereunder, shall alter or modify the Parties' rights, duties, and obligation hereunder; (iii) this Agreement shall not be construed to create any rights between Seller and the Transmission Provider; (iv) Seller expressly recognizes that, for purposes hereof, the Transmission Provider shall be deemed to be a separate entity and separate contracting party from PacifiCorp; and (v) Seller acknowledges that PacifiCorp, acting in its merchant capacity function as purchaser hereunder, has no responsibility Transmission Provider.

SECTION 23: COUNTERPARTS

This Agreement may be executed in counterparts. Signed copies of such counterparts may be transmitted to the Parties via electronic mail. Electronically transmitted signed counterparts shall have the same effect as originals as between the Parties.

SECTION 24: JURY TRIAL WAIVER

TO THE FULLEST EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HERETO WAIVES ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF LITIGATION DIRECTLY OR INDIRECTLY ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT. EACH PARTY FURTHER WAIVES ANY RIGHT TO CONSOLIDATE ANY ACTION IN WHICH A JURY TRIAL HAS BEEN WAIVED WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT BE OR HAS NOT BEEN WAIVED. THIS SECTION SHALL SURVIVE TERMINATION OR EXPIRATION OF THIS AGREEMENT.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed in their respective names as of the date set forth above.
