Fred,

In corresponding with Jonathan Lee at the DPU it was brought to our attention that they/you had not received our 2023 report on compliance with the Dixie Power Wildland Fire Protection Plan. So I searched my files and found where I'd presented the report of the 2023 Wildland Fire Plan project completion to my Board of Directors in November 2023, but I couldn't find where I had converted the file to a pdf to send to the PSC. So now I've printed the file to a pdf and I've attached it here. I apologize for the oversight. I'm sure I was thrown off by the fact that I'd submitted a new Wildland Fire Protection Plan back in June of that year even though the 2023 projects were still being completed for that calendar year. Do I also need to send it to anyone else at the PSC to close that loop?

Thank you,

**Colin W Jack, PE****Chief Operating Officer****Dixie Power****435-673-3297**

Hi Chery, et al,

Yes, you will want to contact Fred Nash at the PSC to see what Dixie Power needs to do to file its last year's compliance report retroactively, if necessary since the current year's report was filed already. I do see the updated 2023 Wildland Fire Plan in the PSC system. I have cc'd Fred on this email as well.

I only noted that last year's Compliance report was missing, but it was outside the scope of my review for this year's Compliance report.

Jonathan,

Thank you for following up with us; sorry for any confusions.

1. I see you found the date of the presentation to the Board of Directors on November 6, 2024.
2. The dates on the Wildland Fire Protection Plan are a bit confusing since they run from June to June. So I've dated them June 2020-June 2023, and June 2023-2026. But we could call it January 2024-December 2026 if that works better.
3. I searched my files and found where I'd presented the report of the 2023 Wildland Fire Plan project completion to my Board of Directors in November 2023, but I don't find where I converted the file to a pdf to send to the PSC. So I've printed the file to a pdf and I've attached it here. I apologize for the oversight. I'm sure I was thrown off by the fact that I'd submitted a new Wildland Fire Protection Plan back in June of that year even though the 2023 projects were still being completed for that calendar year. Do I also need to send it to the PSC e-mail to close that loop?

Thank you,

Thank you. I did read that the Board did approve the Compliance report on Nov. 6, 2024.

Jonathan Lee.

Hello Jonathan - I have been on vacation with minimal service. I have added Colin Jack to this email. He can help you directly.

Thanks,

Chery

Hi Chery,

I was assigned to review Dixie's Power's recently filed Wildland Fire Compliance Report for the year ending 12/31/23 and just had a few clarification questions...Maybe you can answer these questions or pass me on to someone.

- 1) Was the Compliance Report approved by the Board of Directors, and if so, what date was that meeting?
- 2) Does the updated September 2023 WFPP cover the year 2024-2026 (as opposed to 2023-2026 as mentioned in the Compliance report)?
- 3) Did Dixie Power file a Compliance report for YE 12/31/2022 last year? I do see the WFPP filed but didn't see a filed Compliance report for 2023 in the Division's or in the PSC files / folders.

Thank you.
