Re: *Revisions to Tariff No. 1 of Ticaboo Utility Improvement District,*
Docket No. 24-2508-T01

Dear Ms. Wilson,

The Public Service Commission (PSC) reviewed tariff revisions to Ticaboo Utility Improvement District's (TUID) Schedule No. 1, filed February 20, 2024 ("Tariff Revisions"). The Tariff Revisions will allow TUID to include a fuel surcharge of \$0.14/kWh¹ on each kWh sold for each month that the fuel price is \$1.00/gallon above \$3.00/gallon. TUID explains that it takes approximately one gallon of diesel fuel to produce seven kWh; thus, the \$0.14 extra for each kWh allows recovery of the additional \$1.00/gallon. TUID proposes the Tariff Revisions take effect April 1, 2024.

The Division of Public Utilities (DPU) filed comments on March 5, 2024. DPU comments that TUID held a public meeting February 7, 2024, and the TUID board adopted the Tariff Revisions on February 15, 2024. DPU represents that the Tariff Revisions will allow TUID to maintain a balanced budget when fuel costs rise above \$3.00/gallon. DPU recommends the PSC accept and acknowledge the Tariff Revisions.

Based on the PSC's review of the Tariff Revisions, DPU's comments and recommendations, and the lack of opposition, the Tariff Revisions will be deemed acknowledged as complying with Utah Code Ann. § 54-7-12, upon receipt of corrected clean and redlined versions of the proposed tariff showing the correct surcharge. At such a time, the PSC will also make the Tariff Revisions available for public inspection.

¹ The cover letter indicates a surcharge of \$0.14/kWh for every \$1.00/gallon over \$3.00/gallon and the clean and redlined versions of the tariff indicate a surcharge of \$0.0014/kWh for every \$0.01/gallon over \$3.00/gallon.
