Re: Rate Adjustment to all Irrigation Service (Off-Peak) Rate (I-OP Rate)
Class Users

To Whom it May Concern,

At the Board of Directors meeting on May 12, 2025, the Mt. Wheeler Power board will consider the first reading of the I-OP rate schedule adjustment, which is now being submitted to your office for review. The board plans to conduct a second reading and finalize implementation during their meeting on June 10, 2025.

This additional language is necessary due to an inadvertent deletion of the Demand Charge section of the policy during an update in 2020. The deletion was discovered when for the first time in over 5 years a member in Nevada inquired about using the rate.

Mt. Wheeler Power is headquartered in Ely, Nevada and has complied by all reporting requirements in the state of Nevada. Currently, no members in the state of Utah are, or have inquired about, the I-OP rate.

If you have any questions regarding this explanation of our adjustment or any other matter, please contact me.

SPECIAL CONDITIONS:

Terms of Payment:

All bills for service are due and payable upon presentation. In the event payment is not received by the payment due date, such account shall be considered past due and will be subject to the terms and conditions of Policy 6.7. Bills shall be rendered monthly. All bills not paid by the date of presentation of the next bill shall be charged a late charge of 2% per month on the unpaid balance on such account. The partial payment of any unpaid balance shall not be construed to mean that Mt. Wheeler is allowing a customer to defer payments on the account.

Account Classification:

Irrigation accounts shall be divided into two groups for prepayment and billing purposes. All accounts will be subject to the terms and conditions of Policy 6.7 "Irrigation Rating System".

WINTER SERVICE:

All Irrigation services may be disconnected on or before October 31. The consumer may make prior arrangements by making application to leave any particular service energized during the winter months (November through March). The irrigation consumer may obtain winter service for any month(s) during the winter season by making application and paying the monthly billing. If an account is connected and disconnected during the winter months, rates will apply as per Rule 24.

RATE CODE
I-OP

Energy charges and demand charges (or monthly minimum charges) will be billed monthly in accordance with Rule No. 5 and delinquent accounts shall be subject to disconnect in accordance with Policy 6.6.

Service to an account energized under the provision of this section will be disconnected on or before March 31 if any prepayments required under the Prepayment section have not been received.

Minimum Charge:

If a consumer makes application to leave his irrigation service connected from November 1 through March 31 there shall be a minimum charge of \$30.00 for each month the energy and demand charges are less than the minimum charges.

Wholesale Power Cost Adjustment:

The rates contained in this tariff are generally based upon the cooperatives cost of purchased power (Wholesale Power). These rates may be subject to the imposition of any purchased power adjustment by a similar percentage, or fixed dollar amount of increase or decrease as it relates to the wholesale power cost from our wholesale power supplier. Any proposed or considered change in these rates must still receive the necessary approvals of the board of directors as outlined in the cooperative bylaws. Section 11.09 (Rate Change).
