

In fact, last January she landed in the hospital and doctors pointed to the inversion as the primary cause. As tools like AI and an increasing population put greater strain on our energy systems we need to be thinking about the future & our role as stewards of the planet. My family is in full support of bringing clean energy to our grid!

Thank you,

Emily Peterson

Hi! My name is Emily Peterson & I'm writing in support of Docket No-25-035-06.

I am very excited about this program & urge your approval of the application because I hate the inversion & believe Utah desperately needs to invest more in clean energy to allow people to continue to enjoy its beautiful outdoors. My mother has suffered from a chronic illness called Sarcoidosis that has been aggravated every year by the air pollution in Salt Lake city.
