To: psc@utah.gov

I urge you to give priority to Docket No. 25-035-52 and to develop large-scale solar power for utilities in Utah before federal tax credits expire.

I support Utah Clean Energy's proposal for expedited review of renewable energy projects.

Docket 25-035-52

Dear Utah Public Service Commissioners,

Please open up an expedited investigatory docket to enable energy developers to fasttrack projects before tax credits expire.

If you can agree to streamline the approval process for shovel ready energy developers to take advantage of of the current tax credits, it will enable rate payers like me to save billions of dollars in energy costs over the next ten years. This would fit nicely with Governor Spencer Cox's Operation Gigawatt program.

Thank you for your consideration.

Sincerely,

Linda Bonar
