EnergySolutions, LLC
Mixed Waste Facility

Request for a Site-Specific Treatment Variance for Cemented Uranium Extraction Process Residues

EnergySolutions requests approval to receive an exemption from the treatment standards described in Utah Administrative Code (UAC) R315-268-40(a)(2) for uranium extraction process residuals encased in cement that retain hazardous waste codes D004 (arsenic); D005 (barium); D006 (cadmium); D007 (chromium) D008 (Lead); D010 (Selenium); D011 (Silver); D030 (2,4-dinitrotoluene); D032 (hexachlorobenzene); D033 (hexachlorobutadiene) and F001, F002, and F005 (spent solvents) for macroencapsulation. All other required treatment standards associated with the waste will be met prior to disposal.

This variance is being requested for approximately 2,000 cubic feet of cemented uranium extraction process residuals as part of uranium recovery processes at the generator's facility. The residual waste from each of these processes is collected in small cans (~ 2 ½ gallons each) and stored at the generator's facility. The process residuals within the cans have been characterized through a random sampling analysis process. At the beginning of this campaign, approximately 2,000 cans of process residues were collected and stored by the generator. The process is ongoing and additional cans are being generated every year. Further, due to safety concerns, some of the cans are being split open before undergoing process described below, thereby generating more total material for disposal.

F-listed solvent codes within this waste are derived from rags that are burned in a furnace in order to recover the uranium present within them. None of the F-listed constituents were present above their respective treatment standard concentrations within the random characterization samples of the process residues. The random characterization samples were also analyzed for metals using the Toxicity Characteristic Leaching Procedure (TCLP). These samples detected elevated concentrations of barium (up to 6,740 mg/L TCLP), cadmium (up to 16.4 mg/L TCLP), chromium (up to 15.2 mg/L TCLP), and lead (up to 10.5 mg/L TCLP). Based on these elevated metal concentrations, the characteristic waste codes D005, D006, D007, and D008 were applied to the process residues. Slightly elevated concentrations of arsenic (D004), selenium (D010), silver (D011), 2,4-dinitrotoluene (D030), hexachlorobenzene (D032) and hexachlorobutadiene (D033) were also detected in separate analyses. The residue may potentially contain these codes also.

The uranium content within the process residues is enriched. From a health and safety standpoint, the enrichment makes the waste more hazardous to employees managing the waste. Further, the enriched material has increased security concerns and must be managed appropriately. To ensure the enriched uranium concentration limits required for worker safety, security, and transportation of this waste are met, appropriate packaging procedures were created and are currently being utilized at the generator's facility. These packaging procedures include repackaging the cans into 16-gallon drums and filling the void spaces with cement; formal treatment for the elevated metals concentrations is not performed during this process. The generator has assessed other options, including treatment for the hazardous constituents; however, additional processing introduced unacceptable hazards from a health and safety and security viewpoint. Additionally, the waste within the cans is inherently safe from a criticality aspect and the generator concluded that it is unwise to perform extra processing that could potentially change this aspect. Furthermore, encasing enriched uranium within concrete is the preferred method of stabilization as recommended by the Nuclear Regulatory Commission (NRC). The waste material packaged in these 16-gallon monolithic forms is inherently safe and is the form that will be shipped and received at the EnergySolutions Clive facility. The characteristic hazardous waste codes associated with the process residues has numerical concentration-based treatment standards based upon the leachability of the contaminants. Treatment of the monolithic form for these concentration-based treatment standards would entail a process that includes shredding of the monolith followed by mixing with a stabilizing reagent in a permitted mixer. Both of these steps could mobilize the enriched uranium and possibly cause airborne contamination, increasing the potential for releases to the environment as well as the potential for personnel exposure; thereby violating radiation protection: As Low As Reasonably Achievable (ALARA) principles. Also, the shredding of the solidified uranium ash results in a more accessible form of enriched uranium with potential security ramifications.

EnergySolutions proposes to macroencapsulate the waste, thereby isolating the waste from potential leaching media. Macroencapsulation is a permitted process utilized at the Clive facility that significantly reduces the potential for migration (leaching) of waste. Macroencapsulation requires less handling of the waste and creates a waste form for disposal that is protective of human health and the environment. Macroencapsulation also adds a further level of security restricting access to the enriched uranium.

Final disposal of the waste will occur in the Mixed Waste Disposal Cell at the EnergySolutions Mixed Waste Facility.

A 30-day public comment period to receive comments on the treatment variance for cemented uranium extraction process residues will commence on Thursday, May 2, 2024 and end at 5 p.m. on Friday, May 31, 2024.

Documents related to this application can be reviewed at the Division of Waste Management and Radiation Control Public Notices website at: **https://deq.utah.gov/public-notices-archive/waste-management-radiation-control-public-notices**

For further information or assistance in obtaining a copy of documents is required, contact Tyler Hegburg at 385-622-1875.

Written comments will be accepted if received by 5:00 p.m. on May 31, 2024. Written comments must be directed to the following address:

Douglas J. Hansen, Director
Division of Waste Management and Radiation Control
Utah Department of Environmental Quality
P.O. Box 144880
Salt Lake City, UT 84114-4880

Comments can also be submitted electronically by email to: **demrcpublic@utah.gov**. Comments submitted by email must be identified using the following in the subject line: "Public comment on Cemented Uranium Extraction Process Residues." All documents included in comments must be submitted in pdf format or as ASCII (text) files.

Under Utah Code Section 19-1-301.5 a person who wishes to challenge a Permit Order may only raise an issue or argument during an adjudicatory proceeding that was raised during the public comment period and was supported with sufficient information or documentation to enable the director to fully consider the substance and significance of the issue.

In compliance with the Americans with Disabilities Act, individuals with special needs (including auxiliary communicative aids and services) should contact LeAnn Johnson, Office of Human Resources at 385-226-4881, Telecommunications Relay Service 711, or by email at **leannjohnson@utah.gov**.

NOTICE OF UNCLAIMED PROPERTY

Salt Lake City International Airport currently holds various unclaimed properties. Items scheduled for disposal include clothing, watches & jewelry, electronics, bags & backpacks, keys, bank/identification cards, mobile devices, loose currency, eyewear, wallets and purses and other misc. items. The legal owners of these items are either unknown or have failed to respond to all attempts to contact them. Property not claimed within 8 days of this posting may be appropriated for public use, destroyed in appropriate circumstances, or sold by competitive bid at a public auction, with the proceeds made available for public interest use. To make a claim prior to liquidation, please file a claim at **https://slcairport.com/airport-services/lost-and-found/**. You must show proof of ownership or provide a detailed description of your property.

NOTICE OF INTENTION TO DISPOSE OF FORFEITED PROPERTY PURSUANT TO UTAH CODE ANN. 24-4-105(10)(a)(i)

TAKE NOTICE THAT pursuant to the Order of Forfeiture entered in the Fourth District Court, Utah County, State of Utah, on June 16, 2023, in Case #201400096, the Court ordered forfeiture of the sum of One Thousand Eight Hundred Fifteen Dollars ($1,815.00) U.S. Currency from Danny Alan Draper, and the same was forfeited to the State of Utah pursuant to Utah Code Ann. 24-4-102 and following.

The prosecuting attorney gives notice to any person who may assert a legal interest in the said sum of Five Hundred Thirteen Dollars ($513.00) in U.S. Currency that, after expiration of 30 days from the date of publication of this notice, the State of Utah will dispose of the said sum, absent filing, within such period, with the Fourth Judicial District Court, 137 North Freedom Boulevard, Suite 100, Provo, Utah, 84606, and serving upon the Utah County Attorney at 100 East Center Street, Suite 2100, Provo, Utah, 84606, of a petition by any such person for a hearing to adjudicate the validity of the person's alleged interest in the subject property.

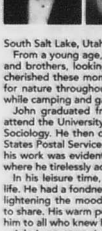
Obituaries



John Pulver
1951 ~ 2024

West Valley City, UT— John Stirley Pulver, left this earth unexpectedly on Friday, April 26, 2024, at the age of 72 in West Valley City, Utah. Born on December 16, 1951, to Stirley J Pulver and Lois Earley Pulver. John grew up in a home filled with love in South Salt Lake, Utah, alongside his five siblings.

From a young age, John shared a special bond with his father and brothers, looking forward to hunting and fishing trips. He cherished these moments spent outdoors and carried this love for nature throughout his life, sharing it with his own children while camping and gardening.

John graduated from Granite High School and went on to attend the University of Utah, where he earned a BS Degree in Sociology. He then dedicated 30 years of his life to the United States Postal Service, retiring with honor. John's commitment to his work was evident in his role as union president for 8 years, where he tirelessly advocated for his fellow workers.

In his leisure time, John found joy in the simple pleasures of life. He had a fondness for old movies, cars, and had a knack for lightening the mood with his humor, always ready with a joke to share. His warm personality and infectious laughter endeared him to all who knew him.

John's greatest joy, however, was found in his family. He married Rachel Sloan, together they had two children, Ty Fulver and Heidi Jeffries (Jon). Later, he married Linda Wilson, and they welcomed three children, Jeremy Pulver, Ryan Pulver (Tina), and Austin Pulver.

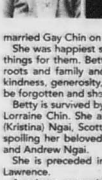
John was preceded in death by his parents, Stirley J Pulver and Lois Earley Pulver, as well as his nephew Chad Eaton. He is survived by his loving children, 8 grandchildren, and 6 great-grandchildren, along with his siblings Sue Hall (Rick), Peggy Eaton (Michael), Linda Oldroyd (Jack), Phil Pulver (Jill), Bruce Pulver (Darlene), and many nieces and nephews who adored him.

John's legacy of love, laughter, and dedication will forever be cherished by all who had the privilege of knowing him. His spirit will live on in the hearts of his family and friends, and he will be deeply missed.

Friends and Family may visit the Memorial Murray Mortuary Friday, May 3, 2024 from 6:00 PM. - 8:00 PM. 5850 South 900 East, Murray, Utah, 84121.

The family wishes to thank the many people who have helped and assisted during this difficult time.

MEMORIAL
MORTUARY & CREMATORY



Betty W. Chin
1924–2024

Salt Lake City, UT—Our beloved wife, mother, grandmother, great-grandmother and friend, Betty Chin passed away peacefully on April 27, 2024, at the age of 99. Betty was born in Toisan, China, on October 28, 1924. She married Gay Chin on August 18, 1947, in Hong Kong.

She was happiest surrounded by family and friends and doing things for them. Betty was a hard worker and never forgot her roots and family and friends always came first. Her legacy of kindness, generosity, and compassion towards others will never be forgotten and she will be deeply missed.

Betty is survived by two daughters, Laura (Raymond) Ngai and Lorraine Chin. She also leaves behind three grandsons, Jeffrey (Kristina) Ngai, Scott Chin, and Christopher Chin. She will miss spoiling her beloved and adorable great-grandchildren, Allison and Andrew Ngai.

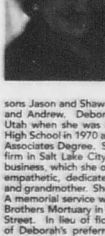
She is preceded in death by her husband Gay and her son Lawrence.

A private graveside service for immediate family only will be held. In lieu of flowers, please consider a donation to your favorite charity.

The family would like to express deep appreciation and gratitude to Mary Lough of Wound Tech for her exceptional care and compassion and acknowledge the Inspiration Hospice Team for their many kindnesses.

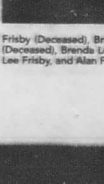
Services are being handled through Larkin Mortuary of Salt Lake City, Utah.

Larkin



Deborah Ann Hickenbotham Bybee
3/9/1952 - 4/21/2024

Bountiful, Utah—Deborah Ann Hickenbotham Bybee, born March 9, 1952 in Aberdeen, South Dakota passed away at her home in Bountiful, Utah on April 21, 2024 after a long battle with heart disease. She was continually surrounded by family and ones many weeks before her passing. She is survived by her husband Craig, whom she married in 1975, two sons Jason and Shawn, and three grandsons Jacob, Christopher and Andrew. Deborah moved from South Dakota to Layton, Utah when she was a young girl. She graduated from Layton High School in 1970 and then Stephens Henager College with an Associates Degree. She worked as a secretary at an accounting firm in Salt Lake City and later opened her own book-keeping business, which she operated out of her home. She was a kind, empathetic, dedicated thoughtful and caring spouse, mother and grandmother. She is going to be missed by all who knew her. A memorial service will occur on May 3, 2024 at 2pm at Russon Brothers Mortuary in Bountiful, Utah located at 295 North Main Street. In lieu of flowers, please consider a donation to one of Deborah's preferred charities such as St. Judes Children's Hospital, The American Heart Association, or Utah Humane Society.



Anne Frisby
December 24, 1932 ~ April 19, 2024

Heber City, UT—Anne Frisby was born in Heber City Utah on December 24, 1932, passed away peacefully at her home. The Spring Garden Senior Living Center in Heber City, on April 19, 2024, at the age of 91.

She was born to Odetta Alder and Wade Cummings and married Clifford Larry Frisby on June 8, 1949. They had seven children together. Clifford Pat Frisby (Deceased), Brad Frisby, married to Sandra, Diane Davis (Deceased), Brenda Lex, Lana Przybocki, married to Stephen, J. Lee Frisby, and Alan Frisby, married to Christy.

Helen Stephens
1941 - 2024

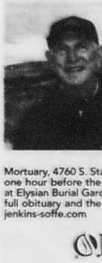
Summerville, SC—Helen Jensen Stephens passed away on April 25th, 2024, at the age of 82. Born November 15th, 1941, in Salt Lake City, Utah, she was the daughter of the late William Jensen and Helen Gray McMullen. She married the love of her life, David Stephens, and they spent 61 years together.

Helen was a beautiful woman both inside and out and showed gratitude and grace even during her most difficult times. She was a strong, independent woman, who had a passion for many things in her life, mostly her family both near and far. Helen never met a stranger and politely greeted anyone she encountered. Her sense of style was impeccable, and she was incredibly talented and creative, it showed in everything she lovingly touched. Her priority in life was caring for her family; she adored her grandchildren and was so incredibly proud of each of them as well as her two daughters and her son-in-law "Monsy". Her brothers and their families meant the world to her. Helen enjoyed being active; she loved being outdoors, enjoying her beautiful yard, playing golf, tennis and traveling. She loved music, dancing with Dave, and entertaining friends and family.

She leaves behind her loving children, Tracy Stephens Lyssand (Mons) of Tysnes, Norway and Jill Simmons of Charleston, SC; grandchildren: Chelsea Amalys Lyssand of Charleston, SC, Cassie Simmons McHenry (Tyler) of Charleston, SC, Pytten Lyssand of Osoyro, Norway, and Taylor Simmons of Lexington, SC; siblings: Gray Jensen (Linda), Michael Jensen (Dava), and Peter Jensen (Sheri); her special niece, Heidi Calacino (Matt); as well as numerous beloved nieces and nephews. She was preceded in death by her beloved husband Dave, brother, Bill Jensen, and her loving parents.

The family would like to thank the entire staff at the Villages of Summerville, Will Strickland of Gentiva Hospice of Charleston as well as Tonya Gadsden, CNA and Pattie Markley, MT who all so lovingly and graciously took care of our mother for so many years. We will always be in awe of the heartfelt love given to her.

The family will hold a celebration of life at a future date. In lieu of flowers, please make donations in honor of Helen Stephens to the Employee Appreciation Fund c/0 The Village at Summerville at 201 W 9th North Street Unit 140 Summerville, SC 29483



Ray Varoz
1940 - 2024

Ray O. Varoz
July 16, 1940 - April 25, 2024

Ray O. Varoz passed away peacefully on April 25, 2024, at home surrounded by his loving family. Ray was born in El Rito, NM on July 16, 1940, to J. Roman Varoz and Bernadette Duran. On July 19, 1961, he married his high school sweetheart J. Lynn Varoz. A viewing will be held Wednesday, May 1 from 6-8 pm. The Memorial Service is Thursday, May 2, at 11 am at Jenkins-Soffe Mortuary, 4760 S. State Street in Murray, UT. Visitation will begin one hour before the service. Graveside and interment to follow at Elysian Burial Gardens, 1075 E. 4580 S. Salt Lake City, Utah. A full obituary and the Memorial Service will be available at www.jenkins-soffe.com
