

NEW YORK TIMES CROSSWORD

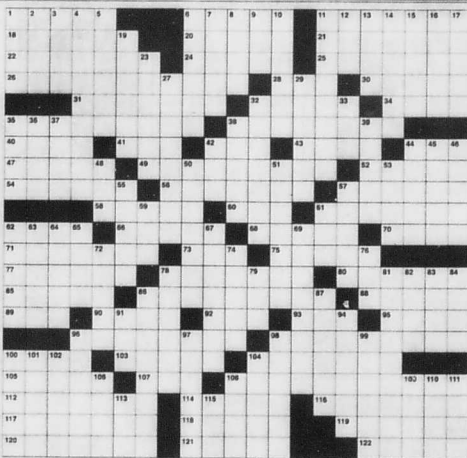

No. 0519

PIXAR BOX SET

BY AVERY GEE KATZ / EDITED BY JOEL FAGLIANO

Avery Gee Katz, of Santa Clara, Calif., is a software engineer at a software company. She came from a puzzle-loving family — the first crossword she ever made was a Father's Day present for her dad. A diligent constructor, she worked and reworked this puzzle for months, ultimately ending up with 10 versions of the grid. You're solving version No. 10!

- ACROSS**
- 1 Depicts unfairly
6 Monitor

KENKEN MATH PUZZLE

THE LOGIC PUZZLE THAT MAKES YOU SMARTER.

1-	2÷	6	8X
		3÷	3-
2-		3+	30X
3÷	1-	11+	18X
1-			24X
7+	1-		

RULES

- Each row and each column must contain the numbers 1 through 6 without repeating.
- The numbers within the heavily outlined boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corner.
- Freebies: Fill in single-box cages with the number in the top-left corner.

MATH CHALLENGER

DIRECTIONS:
Fill each square with a number, one through nine.
• Horizontal squares should add to the totals on right.
• Vertical squares should add to the totals on bottom.
• Diagonal squares through center should add to total in upper and lower right.

5-26

		9		24
				26
6				21
				20
	2			23
			3	16

KIDTOWN

What's the largest number you can find in today's paper?

New Zealand's TUATARA has a third eye on the top of its head, concealed beneath a thin covering of scales and pigment.

"CUATRO-OJOS" - the four-eyed fish - is a South American fish that can see above and below the water at the same time!

The words BALL, GLASS, SORE and LID can all be added to EYE to make a new word. Which body part can be added to the following to make a new word?

1) CHAIR, REST, PIT, BANDS, HOLE and FORT
2) SARET, SHAKE, FIRST, UNDER and CLAP
3) LOOKER, BRIDGE, BALL, STEP and WORK
4) SCARE, ACHIE, MAST, LIGHTS and STONE
5) WASH, WATERING, PIECE and LOUD

A tiny marine creature called the OPABINIA, which lived 500 million years ago in what is now Canada, had five mushroom-shaped eyes.

Most spiders have eight eyes, but some, like the RECLUSE SPIDER, have six eyes.

Can you work out the following words that contain an EYE?

- Failed to follow a command: **EYE**
- Traveled somewhere: **EYE**
- Carefully examined an area: **EYE**
