*Attorneys for Will-Power UT, LLC*

---

**BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH**

---

Application of Will-Power UT, LLC for  
Approval of a Large Load Contract Under R746-  
318-201, R746-318-601

Docket No. **25-2660-01**

---

**LARGE-SCALE GENERATION PROVIDER'S  
APPLICATION FOR A CLOSED PRIVATE GENERATION CONTRACT**

---

Will-Power UT, LLC (“Will-Power”), noticed its registration as a Large-Scale Generation Provider in Docket No. 25-2660-01 (“Original Filing”), currently pending with the Commission.

In compliance with R746-318-201 and R746-318-601, Will-Power hereby supplements its Original Filing to provide the Commission with an appropriately redacted copy of the closed private generation contract, the Power Purchase Agreement (the “PPA”) relevant to Will-Power’s project and to update the Original Filing in relation to the project.

Attached hereto as Exhibit “A” is the PPA executed on February 6, 2026. In support of its application, pursuant to R746-318-201 and R746-318-601, Will-Power states as follows:

**I. THE FILING PURSUANT TO R746-318-201 and R746-318-601.**

1. Will-Power and customer executed the PPA on February 6, 2026, as reflected by the attached Exhibit A, in compliance with R746-318-201(1).

2. No qualified electric utility is a party to the PPA.

3. An appropriately redacted version of the application for Commission approval of the PPA has been served upon the Rocky Mountain Power as of the date of this filing pursuant to R746-318-201(3).

4. Project Aquila is a closed posed private generation system, which will operate with complete separation from Rocky Mountain Power's system.

5. Project Aquila is not connected to and operates independently from the transmission system of any qualified electric utility, cooperative utility, municipal utility, or any other utility.

6. Rocky Mountain Power has no duty to provide electric service including any ancillary services.

7. Rocky Mountain Power will not provide backup power in the event of an outage.

8. Will-Power will not increase Rocky Mountain Power's electricity demand to serve the customer.

9. As customer has entered into a PPA for a closed private generation system, it is not required to submit a large-scale service request pursuant to 54-26-301(5).

10. Upon completion of this Docket No. 25-2660-01, Will-Power will provide notice to the customer of any conditions imposed on its registration by the Commission.

11. In addition to the PPA, Will-Power has determined that it will install an additional service lateral connecting the facility to the Kern River pipeline in a location adjacent to the originally planned pipeline.

///

## **II. DEVIATION.**

12. Pursuant to R746-1-109, Will-Power respectfully requests a deviation from the 15-day timeline provided for in R746-318-201(1).

13. As the first party to file a closed private generation contract, Will-Power and customer worked diligently to ensure that all requirements under R746-318 were met, however, the dialog and commercial process to determine which sections of the PPA could be redacted were unable to be completed in the 15-day timeframe.

## **III. CONFIDENTIALITY.**

14. Will-Power requests confidential treatment of certain confidential information contained in the filing including the name of the customer, and current and future owned and contracted generation resources.

15. Confidential information has been uploaded to the Commission's SFTP site. Confidential information is provided subject to R746-318-103 of the Public Service Commission of Utah Rules.

## **IV. REQUESTS FOR RELIEF.**

1. Will-Power respectfully requests that the Commission issue an order approving the PPA for a large load contract.

2. Will-Power respectfully requests that the Commission deviate from the 15-day filing requirement in R746-318-201.
