Re: Rate Adjustments

To Whom it May Concern,

At the Board of Directors meeting on March 16, 2026, the Mt. Wheeler Power board approved for the first reading and on April 20, 2026 for the second reading the following rates: Rate Code GS, GS-CH, H-1, (I) HS, LGS-AE, LGS-C, LGS-CH, LGS-KWH, LGS-KWH(EV) LGS-OP, and R. At the Board of Directors meeting on April 20, 2026, the Mt. Wheeler Power board approved for the first reading and on May 12, 2026 for the second reading the following rates: Rate Code LGS-OP, LGS-IOP, and I-OP. Please see attached for the rate schedule including the amended off-peak hours (Rate Code LGS-OP, LGS-IOP and I-OP) that is being submitted to your office for adjustment. The effective date for these rates will be July 1, 2026.

This rate adjustment has become necessary as Mt. Wheeler Power, like all electric utilities, have experienced increasing cost pressures from material, labor, and regulatory requirements. In November of 2025 Mt. Wheeler engaged in a cost-of-service study which also supports these adjustments.

Mt. Wheeler Power is headquartered in Ely, Nevada and has complied by all reporting requirements in the state of Nevada.

If you have any questions regarding this explanation of our adjustment or any other matter, please contact me.

Kevin Robison  
Mt. Wheeler Power CEO
