Re: Docket No. 26-031-T02 - *Mt. Wheeler Power, Inc.'s Proposed Tariff Revisions*

Dear Mr. Robison,

The Public Service Commission (PSC) reviewed Mt. Wheeler Power, Inc.'s ("Mt. Wheeler" or the "Company") June 3, 2026, filing (the "Filing") of proposed rate adjustments ("Tariff Revisions"). Mt. Wheeler indicates that the Tariff Revisions are necessary as the Company has experienced increasing cost pressures from material, labor, and regulatory requirements. The adjustments are further supported by the Company's November 2025 cost-of-service study. Mt. Wheeler also states that it has complied with all reporting requirements to which it is subject in Nevada (its headquarters). The Filing proposes an effective date of July 1, 2026.

The PSC also reviewed the comments filed by the Division of Public Utilities (DPU) on June 16, 2026. DPU indicates that Mt. Wheeler's Board of Directors had approved the Tariff Revisions over two readings. DPU notes that the Tariff Revisions include increases across most of Mt. Wheeler's customer classes including residential, small commercial & churches, electric heat service, large commercial & churches, large commercial-electric heat, large general service, and electric vehicle facilities. In addition, the Tariff Revisions include standardizing Mt. Wheeler's off-peak time schedules to be defined as 10:30 p.m. to 5:00 a.m. in the Winter (Oct.-Apr.) and 10:30 p.m. to 5:30 a.m. in the Summer (May-Sept.). Despite the Filing not meeting the

standard 30-day notice period, DPU found no significant harm caused by the delay. DPU confirmed that the Company provided the necessary updates and recommended that the PSC acknowledge the Tariff Revisions, effective July 1, 2026.

As an initial matter, Utah Code § 54-3-3 requires utilities to provide at least 30 days' notice to the PSC prior to the requested effective date of any proposed tariff revisions. The PSC may, for good cause shown, allow changes without requiring 30 days' notice. The PSC finds that the shortened notice period (27 days) causes no significant or material harm in this specific case and therefore there is good cause shown. Looking ahead, however, the PSC notes that a 30-day notice is required before future rates can go into effect, unless good cause is shown, and directs the Company to comply with the requirement accordingly.

Based on the PSC's review of the Tariff Revisions and DPU's comments and recommendations and given that Mt. Wheeler has complied with all Nevada reporting requirements, the PSC finds good cause exists to acknowledge the Tariff Revisions. The PSC acknowledges the Tariff Revisions comply with Utah Code § 54-7-12 and makes them available for public inspection.

Sincerely,

/s/ Gary L. Widerburg
PSC Secretary
