Re: Docket No. 26-035-01
Rocky Mountain Power's Application for Approval of the 2026 Energy Balancing
Account
Supplemental Notice

Rocky Mountain Power, a division of PacifiCorp ("Rocky Mountain Power" or "Company"), hereby submits this supplemental notice to the Public Service Commission of Utah ("Commission") that its May 1, 2026 application in this matter will include additional information for the Dominguez Energy Storage Facility ("Dominguez").

In Docket No. 22-035-03, the Commission approved the Company's request for a waiver of significant energy resource decisions for five resources, including Dominguez, pursuant to Utah Code Ann. § 54-17-501 and Utah Admin. Code R746-430-4. The Commission's order approving the waiver requires the Company to file information substantially similar to the requirements for major plant additions under Utah Admin. Code R746-700-30 ("MPA Equivalent Information") with its application in an energy balancing account or general rate case proceeding, as appropriate.¹ Dominguez achieved commercial operation on December 19, 2025. Therefore, the Company supplements its January 2, 2026 Notice of Intent to advise the Commission that it intends to file MPA Equivalent Information for Dominguez in the 2026 energy balancing account with its May 1, 2026 application.
