RE: **Docket No. 26-035-28 – Rocky Mountain Power’s Proposed Revisions to Electric Service Schedule 60 – Company Operated Electric Vehicle Charging State Service**

On November 9, 2025, PacifiCorp d/b/a Rocky Mountain Power (“the Company”) filed a Settlement Stipulation in Docket No. 20-035-34, Rocky Mountain Power’s Application for Approval of Electrical Vehicle Infrastructure Program (“2025 Settlement Stipulation”). In the Settlement Terms of the 2025 Settlement Stipulation the Company agreed that “At the time of the next cost of service study annual filing (due June 15, 2026), the Company will file for a rate change for Schedule 60 to implement annual rate increases...”¹ The Company filed its annual cost of survey study for 2025 in Docket No. 26-035-27 on June 16, 2026.

Consistent with the 2025 Settlement Stipulation the Company’s Reply Comments, the Company hereby submits an application for approval of proposed changes to Electric Service Schedule No. 60.

Attorney for Rocky Mountain Power

BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

IN THE MATTER OF ROCKY MOUNTAIN)	
POWER'S APPLICATION FOR APPROVAL)	Docket No. 26-035-28
OF PROPOSED CHANGES TO ELECTRIC)	
SERVICE SCHEDULE 60)	

**ROCKY MOUNTAIN POWER'S APPLICATION FOR APPROVAL OF PROPOSED
REVISIONS TO ELECTRIC SERVICE SCHEDULE 60**

Rocky Mountain Power, a division of PacifiCorp ("Company" or "Rocky Mountain Power"), submits this application ("Application") to the Public Service Commission of Utah ("Commission") to propose revisions to Electric Service Schedule 60 – Company Operated Electric Vehicle Charging Station Service ("Schedule 60"). On November 9, 2025, PacifiCorp d/b/a Rocky Mountain Power ("the Company") filed a Settlement Stipulation in Docket No. 20-035-34, Rocky Mountain Power's Application for Approval of Electrical Vehicle Infrastructure Program ("2025 Settlement Stipulation"). In the Settlement Terms of the 2025 Settlement Stipulation the Company agreed that "At the time of the next cost of service study annual filing (due June 15, 2026), the Company will file for a rate change for Schedule 60 to implement annual rate increases..."¹

Consistent with the 2025 Settlement Stipulation, the Company hereby submits its proposed

¹ Public Service Commission of Utah, Docket No. 20-035-34, Report of Rocky Mountain Power's Application for Approval of Electric Vehicle Infrastructure Program, 2025 Settlement Stipulation, filed November 6, 2025.

changes to Electric Service Schedule No. 60. The Direct Testimony of Kenneth Lee Elder presents the findings from the Company's 2025 cost of service study and analysis for Schedule 60. It includes a recommendation for changes to Schedule 60 rates for charging to cost of service.

In support of its Application, Rocky Mountain Power states as follows:

1. Rocky Mountain Power is a division of PacifiCorp, an Oregon corporation, which provides electric service to retail customers through its Rocky Mountain Power division in the states of Utah, Wyoming, and Idaho, and through its Pacific Power division in the states of Oregon, California, and Washington.

2. Rocky Mountain Power is a public utility in the state of Utah and is subject to the Commission's jurisdiction with respect to its prices and terms of electric service to retail customers in Utah. Rocky Mountain Power's principal place of business in Utah is 1407 West North Temple, Suite 310, Salt Lake City, Utah 84116.

3. Communications regarding this filing should be addressed to:

Max Backlund
Utah Regulatory Affairs Manager
Rocky Mountain Power
1407 West North Temple, Suite 310
Salt Lake City, UT 84116
E-mail: max.backlund@pacificorp.com

Joe Dallas
Assistant General Counsel
Rocky Mountain Power
1407 West North Temple, Suite 320

Email: joseph.dallas@pacificorp.com

In addition, Rocky Mountain Power requests that all data requests regarding this Application be sent in Microsoft Word or plain text format to the following:

By email (preferred): datarequest@pacificorp.com

By regular mail: Data Request Response Center
PacifiCorp
825 NE Multnomah, Suite 2000
Portland, OR 97232

Informal questions may be directed to Max Backlund, Utah Regulatory Affairs Manager at max.backlund@pacificorp.com.

4. On November 9, 2025, the Company filed the 2025 Settlement Stipulation, which specified “At the time of the next cost of service study annual filing (due June 15, 2026), the Company will file for a rate change for Schedule 60 to implement annual rate increases with the glide path shown below.”²

	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031
Cost of Service Glide Path					5%	10%	25%	50%	75%	100%

5. The Company’s cost of service study suggests that Schedule 60 rates would need to increase by 26.0 percent to reach 100 percent of their share of cost of service. Consistent with the glide path outlined in the 2025 Settlement Stipulation, the Company proposes an increase equal to 5 percent of 26.0 percent, or 1.3 percent.³ The Company proposes making equal percentage increases to the prices for DC Fast Charging and no changes to the other prices. This results in the DC Fast Charging price for Non-RMP customers increasing from \$0.45 to \$0.46, and no change to the prices for RMP customers. Exhibit RMP___(KLE-6) provides the redlined tariff sheet for Schedule 60 with the Company’s proposed rate changes.

6. On March 31, 2026, the Company submitted its 2025 Annual Report for the Electric Vehicle Infrastructure Program (“EVIP”) to the Public Service Commission of Utah

² Public Service Commission of Utah, Docket No. 20-035-34, Report of Rocky Mountain Power’s Application for Approval of Electric Vehicle Infrastructure Program, 2025 Settlement Stipulation, filed November 6, 2025.

(“Commission”) in Docket No. 26-035-19. The Division of Public Utilities (“Division”) filed comments expressing concerns regarding the Schedule 60 rates, requesting that the Company demonstrate a thorough understanding of rates charged by competitors in proceedings involving adjustments to Schedule 60 rates, which the Company agreed to in reply comments.³

7. Exhibit RMP___(KLE-5) provides data from the National Renewable Energy Laboratory’s Alternative Fueling Station Database, plus data from publicly-available pricing information from all direct current fast charging stations, to show that that the average rate statewide, including the Company’s service territory, is \$0.50/kWh.

Rocky Mountain Power respectfully requests that the Commission:

- a. Set a scheduling conference to establish a procedural schedule in this matter.
- b. Approve the rates in Schedule 60 identified in this Application.

DATED this 16th day of June, 2026.

Respectfully submitted,

ROCKY MOUNTAIN POWER
