Re: Docket No. 26-035-40—Rocky Mountain Power’s Annual Report of the Pension Asset Settlement Adjustment Balancing Account

Rocky Mountain Power hereby submits its Report of the Pension Asset Settlement Adjustment Balancing Account for calendar year 2025 (“PSABA Report”). The PSABA Report is provided in accordance with the Order issued on November 3, 2021 by the Public Service Commission of Utah (“Commission”) in Docket No. 21-035-14 - In the Matter of the Application of Rocky Mountain Power to Establish a Balancing Account for Pension Settlement Adjustments.

In the Company’s 2024 general rate case in Docket No. 24-035-04, the Commission found the continued operation of the PSABA to be reasonable and in the public interest, despite a forecast test year balance of \$0.¹ The PSABA Report attached herein provides a detailed calculation showing the difference between the Utah-allocated Pension Settlement Adjustments collected in rates and the Utah allocated Pension Settlement Adjustments that were recognized for calendar year 2025.

According to the Commission’s 2021 order in Docket No. 21-025-14, the PSABA Report is to be filed annually on or around May 15. Due to an administrative error this year’s report is being filed late. However, there have been no additional pension settlement losses since the Company’s 2024 general rate case, so this error does not create any adverse consequences.

The Company respectfully requests that all formal correspondence and requests for additional information regarding this filing be addressed to the following:
