Re: *Rocky Mountain Power's Filing in Compliance with the PSC's Order Issued on July 31, 2026, in Docket No. 24-035-04, Application of Rocky Mountain Power for Authority to Increase its Retail Electric Utility Service Rates in Utah and for Approval of its Proposed Electric Service Schedules and Electric Service Regulations; Docket No. 26-035-T08*

Dear Mr. Backlund:

The Public Service Commission ("PSC") reviewed Rocky Mountain Power's August 5, 2026, filing reflecting its proposed rate changes and all other revisions to Tariff P.S.C.U. No. 52 ("Tariff"). RMP submitted the filing in accordance with the PSC's July 31, 2026, Order Approving Settlement Stipulation in Docket No. 24-035-04 ("Order"), Application of Rocky Mountain Power for Authority to Increase its Retail Electric Utility Service Rates in Utah and for Approval of its Proposed Electric Service Schedules and Electric Service Regulations (the "GRC"). RMP included a redline version of the Tariff and the GRC settlement rate spread and rate design, along with other compliance workpapers. The Tariff's effective date is August 10, 2026.

The PSC received comments from the Division of Public Utilities (DPU) on August 11, 2026, in response to the PSC's August 6, 2026, Action Request. Based on its review of the filing, DPU concludes the tariff revisions align with the Order. Accordingly, DPU recommends the PSC approve the Tariff as filed.

Based on the PSC's review of the Tariff and DPU's comments and recommendation, the Tariff is approved as filed, effective August 10, 2026.
