Re: *Dixie Power's Renewable Energy Final Progress Report*, Docket No. 26-066-04; and
Dixie Power's Final Carbon Reduction Progress Report, 26-066-05

Dear Mr. Jack,

On June 30, 2026, Dixie Power filed with the Public Service Commission (PSC) its Renewable Energy Final Progress Report through December 2025 in Docket No. 26-066-04. Subsequently, on August 13, 2026, the Utah Rural Electric Cooperative Association (URECA) filed a Final Carbon Reduction Progress Report on behalf of Dixie Power and other rural electric cooperatives in Docket No. 26-066-05. Both filings describe compliance with the reporting requirements under Utah Code § 54-17-604.

On September 14, 2026, following an initial memo on July 16, 2026, the Division of Public Utilities (DPU) filed comments addressing both Docket Nos. 26-066-04 and 26-066-05. DPU recommended that the PSC acknowledge the final progress reports as meeting the requirements of the Utah Energy Resource Procurement Act, Utah Code § 54-17-604 (the "Act"), and confirm that no further reporting is required under the Renewable Portfolio Goal provisions of the Act.

Based on the PSC's review of the progress reports and DPU's comments and recommendations, the PSC acknowledges Dixie Power's reports comply with the requirements of Utah Code § 54-17-604. Additionally, the PSC acknowledges that no further reporting by Dixie Power is required under the Act.

Sincerely,
/s/ Gary L. Widerburg
PSC Secretary
