Re: *Deseret Generation & Transmission Co-Operative's Final Carbon Reduction Progress Report*; Docket No. 26-506-05

Dear Mr. Johnson,

On August 13, 2026, the Utah Rural Electric Cooperative Association (URECA) filed a Final Carbon Reduction Progress Report through December 2025 on behalf of its member distribution cooperatives pursuant to Utah Code § 54-17-604(5) in Docket No. 26-506-05.

On September 14, 2026, the Division of Public Utilities (DPU) filed comments evaluating URECA's joint final progress report and the qualifying carbon-free resources supplied by Deseret Generation & Transmission Cooperative to its member cooperatives. DPU recommended that the Public Service Commission (PSC) acknowledge the final progress report as complying with the requirements of the Utah Energy Resource Procurement Act, Utah Code § 54-17-604 (the "Act"), and confirm that no further reporting is required under the Renewable Portfolio Goal provisions of the Act.

Based on the PSC's review of the joint progress report and DPU's comments and recommendation, the PSC acknowledges that URECA's report complies with the requirements of Utah Code § 54-17-604. Additionally, the PSC acknowledges that URECA and its member cooperatives have satisfied their reporting obligations and no further reporting is required under the Act.

Sincerely,
/s/ Gary L. Widerburg
PSC Secretary
