

# LP-gas in motor vehicles and farm machinery cuts your costs 8 ways

**1** **Save on engine overhauls.** Because clean-burning LP-gas leaves no lead, carbon or sludge in your engine you can go three times longer without an overhaul. Cut maintenance costs by as much as 75%.

**2** **Save on oil.** Because it's such a clean fuel, oil dilution and contamination is dramatically reduced. Your oil maintains its lubricating properties 5 to 10 times longer. Save up to 80% on oil costs.

**3** **Save on fuel pumps.** LP-gas is already under pressure so there's no need for fuel pumps. So, obviously there's no need for fuel pump parts or repairs.

**4** **Save on spark plugs.** Spark plugs don't burn out, they foul out. Because LP-gas leaves fewer deposits to foul them, plugs last 4 to 5 times longer at peak efficiency.

**5** **Save on carburetor expense.** An LP-gas carburetor has only one moving part. It's got to run better, more efficiently and with far less chance of something going wrong.

**6** **Save on fuel costs.** Now more than ever you should be impressed with the big edge in savings propane has over gasoline. And that edge increases still more in terms of work power per dollar.

**7** **Save on downtime.** Obviously the advantages detailed above add up to less wear and tear and less downtime thanks to LP-gas.

**8** **Save on pilferage.** Whether in its storage tank or in a vehicle, LP-gas is in a completely sealed fuel system safe from spillage, evaporation and pilferage.

built by customers

## QUALITY

V-1 Premium Propane surpasses the highest A.S.T.M./HD-5 Specifications. It is America's finest grade liquified petroleum gas. It burns completely. There is no smoke, no soot, no clinging oily film. By the most meticulous chemical comparison, there is no finer propane in the world today than V-1.

## SERVICE

V-1 people specialize in personal service. V-1 Premium Propane delivery trucks are radio dispatched and usually are only a few minutes from you. For automatic, keep-full — or in emergency — you can rely on V-1. Please note: each V-1 truck is powered by Premium Propane, too.

## SAVINGS

V-1 sells major quality Premium Propane for 2 to 4 cents less. How? Because we're local — home owned. V-1 has no middlemen, no franchises to pay. We own our own storage tanks and buy directly from the producer and pass the savings on to YOU!

The rates and percentage factors below is evidence enough that Pacific Power and Utah Power should NOT merge. Our Utah Power K.W. rates average over 100% higher than our Pacific Power rates.

**CONTINUED QUALITY SERVICE**  
 with  
**V-1 PROPANE**

We are pleased to announce a "BUDGET PLAN" for our Propane customers. This plan allows you to spread your fuel costs as evenly as possible over a 12 month period in order to curbe the high monthly payments during the winter months when fuel bills soar. This has recently become a very valuable service and has presented a large savings to the customer in many areas.
