RE: Proposed Protective Order: UP&L/PPL Merger;
Utah Public Service Commission

Dear Mr. Campbell:

As counsel of record for Cedar City Corporation, we are in receipt of your communication dated October 30, 1987, concerning the Proposed Protective Order. We are further in receipt of a communication dated November 3, 1987, addressed to you from Gary A. Dodge of Kimball, Parr, Crockett and Waddoups. On behalf of Cedar City Corporation, we are in concurrence with the communication regarding the Proposed Protective Order as set forth by Mr. Dodge.

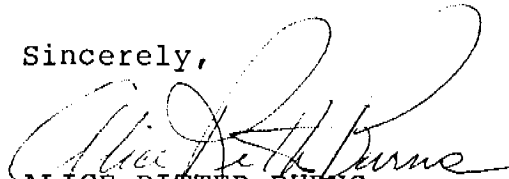

With regard to a central document depository, we have no objection to the same, but would encourage that the depository be the offices of Utah Power and Light. This is suggested for the reason that the offices of Watkiss and Campbell would be very inconvenient to Cedar City Corporation and other parties not located within a reasonable distance.

Finally, we would like to bring to your attention the fact that your above-referenced communication was not received in this office until November 2, 1987. It was requested in your letter that hand deliveries of comments concerning the Proposed Protective Order be delivered to your offices no later than November 3, 1987. It goes without saying that this was unduly

Mr. Robert S. Campbell

burdensome for Cedar City Corporation. In the future, we would be most appreciative of more timely communications in light of our distant location.

Sincerely,

ALICE RITTER BURNS
Cedar City Attorney
