DOCKET NO. 94-2035-03

ORDER

ISSUED: October 18, 1994

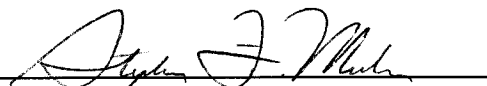

By the Commission:

In this Docket Nucor Steel, the Utah Department of Natural Resources, and the Land and Water Fund have petitioned for intervention. Also, Chevron U.S.A., which has previously been granted intervention status, has petitioned for a broadening of the scope of this Docket to include consideration of qualifying facilities in excess of 1000 kw.

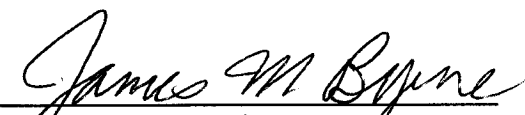

Having reviewed the petitions, the Commission hereby grants the intervention requests of Nucor Steel, the Utah Department of Natural Resources, the Land and Water Fund, and Chevron U.S.A..

With regard to the request of Chevron U.S.A. the Commission will maintain the present schedule and 1000 kw limit at this time. However, in supplementation of our September 14, 1994 Scheduling Order, we direct the parties to file by November 4, 1994 their views and suggestions for handling projects greater than 1000 kw. After reviewing those filings, the Commission will determine whether or not to expand this proceeding.

DATED at Salt Lake City, Utah, this 18th day of October, 1994.

Stephen F. Mecham, Chairman

James M. Byrne, Commissioner

Stephen C. Hewlett, Commissioner

Attest:

Julie Orchard
Commission Secretary
