and)

Application of Questar Gas Company
for
Recovery of Gas Management Costs in
its
191 Gas Cost Balancing Account)

PROCEDURAL NOTICE

ISSUED: June 24, 2005

By the Commission:

On June 15, 2005, the Committee of Consumer Services (“Committee”) filed a memorandum with the Commission stating that following informal discussions the Committee, Questar Gas Company, and the Division of Public Utilities have concluded that matters are not yet at a point where any purpose would be served by proceeding with the June 29, 2005, technical conference previously scheduled. On behalf of these parties, the Committee requested the technical conference be cancelled and indicated the parties will consult with the Commission at a later time to set a new date for the technical

conference.

Therefore, notice is hereby given that the **Technical Conference scheduled for June 29, 2005, is postponed until further notice**. All other aspects of the schedule announced in the Commission's Scheduling Order of March 28, 2005, remain unchanged.

DATED at Salt Lake City, Utah this 24th day of June, 2005.

/s/ Julie P. Orchard
Commission Secretary
