Re: Docket No. 05-0057-T01, QGC GSS/EAC Task Force Report

On May 26, 2006, the Utah Public Service Commission ("Commission") issued an Order in Docket No. 05-057-T01 to "create a task force to address GSS expansion area rate premiums and EACs in the company's tariffs and develop new tariff language to address future system expansion requests." The task force members could not reach a consensus regarding how to address the current GSS/EAC rate premiums in Questar's tariff. There was however, consensus regarding future expansion requests.

On August 24, 2006, the Division of Public Utilities (DPU) filed the report of the task force with the Public Service Commission that gave a recommendation to the Commission regarding this issue. On August 24, 2006, the Committee of Consumer Services filed its comments, which were dissenting from the report filed by the Department of Public Utilities.

Questar Gas Company plans to file reply comments on or about September 15, 2006.

Very truly yours,

Colleen Larkin Bell
