**Subject:** gas Rate increase to pay off rural communities obligations

Mr Logan, Ms Wilson,

I would like to register my opposition to the proposed gas rate increase to pay off rural communities obligations.

IF there is some reasonable argument to be made as to why the residents of Beaver, Millard, Iron, Washington & Emery counties, having previously agreed to pay the surcharge that reimburses Questar for the cost of extending gas pipelines and service to them, should now transfer that agreed upon burden to me, without my consent. I'd like to hear it.

I have some alternatives:

1 - have the residents of Beaver, Millard, Iron, Washington & Emery counties continue to live up to their end of the agreement. Questar extended the gas pipelines and services. Those residents who benefited from this, got the chance to make payments over time. They get the benefits, they agreed to pay, they should continue to pay.

2 - make it optional for other Questar customers to pay some variable amount & then bill the the residents of Beaver, Millard, Iron, Washington & Emery counties for the remainder.

3 - have that surcharge certified as a charitable contribution by the IRS so that I can at least deduct it from my taxes,

4 - have that surcharge treated as a tax credit on my Utah income tax.

Roy Goodwin (CSC)
