I want to make my voice heard on the matter of Questar Gas Co.'s proposal to pass on the costs of extending service to Beaver County and others in the region. I live in Salt Lake County, and have just had a record high natural gas bill. I am strongly opposed to the proposal of adding costs of extending service to rural areas to my bill. I don't feel it is fair to have a group (Beaver County) agree to pay the costs of extending service to them, only to later have that cost to be added to the bills of other people who were not party to the original agreement. Let them fulfill the contract they agreed to. There are many locations in the State and Nation which do not have natural gas service available. I view natural gas service as a convenience, not a necessity or right. I am not happy about the prospect of subsidizing expansion of Questar's empire on the backs of consumers statewide. Thank You, David Bird
