Date: June 17, 2008

Subject: Scheduling of 2nd Technical Conference in Docket No. 07-057-13

The Division would like to schedule a formal follow up Technical Conference noticed to all parties to discuss Questar Gas Company's revisions to their Cost of Service and Rate Design in Docket No. 07-057-13.

The Division would suggest a date of July 1st with a beginning time of 9:30 AM. This date was mentioned as a possible date to hold this technical conference in the Stipulation hearing held June 12<sup>th</sup>. It also is a date that was originally scheduled for Revenue Requirement hearings in this docket. The Division requests that this date is noticed up by the Commission as a formal Technical Conference open to all parties to discuss the Company's revised Cost of Service and Rate Design proposal.
